

Other eReaders

Works With: Nooks and other eReader devices using the Epub and PDF **eBook** formats

1. Download and install **Adobe Digital Editions (ADE)** from www.adobe.com to a Mac or PC. If you don't have one, the program will also prompt you to create an **Adobe ID** to use .
2. Use a Mac or PC to access the Englewood Public Library catalog at englewood.marmot.org.
3. **Search** for a specific eBook by title, keyword, or author.
4. To check out an eBook, click on the gray "**Check Out**" button to the right of the title. If a book selection is already checked out, you will see a "**Place Hold**" button instead (click this to be emailed when the title becomes available.).
5. At download screen pick the **Epub** or **PDF** format and click download. A screen box should appear prompting you to open the eBook with **ADE**. Click "Ok."
6. Plug your eReader device into the computer and wait for **ADE** to recognize it. (It should appear as an icon under "**Book shelves**" on the left side of the **ADE** window.)
7. Transfer your downloaded eBooks to your eReader device by dragging and dropping them onto the eReader's icon under "**Book shelves**." When transfer is finished, unplug your device and enjoy your book. ***eBooks can also be read in ADE**
