Malley Cats Win Colorado Senior Softball Tournament

The Englewood Malley Senior Recreation Center softball team, Malley Cats, took the field on August 19 for the Colorado Senior Softball Association Post Season Tournament and swept the field to take the 2014 championship in the E Division. The Malley Cats carry a 12-14 player roster including five women which is a rarity in the male dominated league. In the final tournament game the Malley Cats faced the Lakewood Hawks, an all-male, undefeated team and beat them 11-6 in a close, hard-fought game.

Englewood City Council announces new City Manager

Englewood, CO: Englewood City Council has announced the selection of Eric A. Keck as Englewood’s new City Manager, effective September 15, 2014. Mr. Keck was selected from a field of six finalists after a months-long nationwide recruitment. He will replace current City Manager Gary Sears, who will retire August 29.

Mr. Keck most recently served as Chief Operating Officer of Ground Force Worldwide, a global mine support equipment manufacturing firm in Post Falls, Idaho. Prior to that he was City Administrator of Post Falls, Idaho for six years. He brings to the position professional experience in both public and private sectors.

Englewood Mayor Randy Penn and Mayor Pro Tem Linda Olson state that they are very proud of this council’s hard work to come to full agreement in the hiring of Eric Keck. “Eric will not only build well on the best of Englewood’s past, but he will bring new energy, innovative thinking, and a strong ethic of care for the community at large. We are very pleased that Eric has agreed to accept our invitation to serve our community in this capacity.”

Mr. Keck provided the following statement: “I am humbled and excited about this opportunity to serve the residents, businesses, and council of Englewood. I look forward to the opportunity to learn from all of the stakeholders in the community about what is working well, what needs improvement, and help to build consensus on a mutually agreeable future state for Englewood.”
The City Council and employees of the City of Englewood look forward to working with Mr. Keck to serve the citizens of Englewood.

New businesses urged to contact cities

'A really strong partner ... and a lot of people don't realize that'

BY PETER JONES

Thinking about starting a small business? Add a phone call to the city's economic-development office to the top of your start-up to-do list.

That was an essential message of an informal presentation Aug. 13 at the Greater Englewood Chamber of Commerce's Women in Business Breakfast.

"I'm surprised at how late in the process business owners wait to contact the local jurisdiction," said local attorney and City Councilman Joe Jefferson. "They can be a really strong partner for you and a lot of people don't realize that."

When it comes to learning about city programs designed to help businesses or how to avoid unseen pitfalls when buying an existing operation, Mayor Randy Penn said it is never too early for a face-to-face sit down with the city's director of economic development.

"These people can tell you exactly what you can do, what you cannot do. ... What obstacles am I going to find? What are some of the things I'm going to have to know before I get started?" Penn said.

For example, how many businesses in Englewood know anything about the city's Commercial Catalyst Grant Program? Englewood invests in businesses by providing free design assistance, landscape improvements and matching-grant dollars for interior and exterior improvements. But you have to know to ask about it.

"The business owner, landlord and city need to cooperate to make that happen," Jefferson said.

Enterprise zones and their associated state tax credits are another benefit for the asking - though some think the cities should take more responsibility to make sure businesses understand such options, as well as the municipal hoops.

Englewood-based accountant Errol Roy has helped numerous business clients get started in the city and elsewhere and described situations where small businesses that could not afford the surprise believed they were blindsided by city regulations.

"It's a bit of a challenge there and my experience was that people at the city weren't very friendly to share that information," he said.

Jefferson acknowledged a communication problem, but said it was a two-way street requiring more proactivity from startup businesses.

"I think, Randy, you and I have to be more accountable and push some city staff," he said to Mayor Penn. "... There's certainly more that we can do. It's a constant battle. It's a constant challenge the city faces. [But] the business owners, themselves, need to take some of that responsibility ... and meet the municipality halfway."
The term "community solar garden" may not roll off the tongue with instant familiarity, but if you think about it, it makes sense. If the collective concept works for neighbors with shared ambitions for growing produce, why not apply the same idea to the sun that makes lettuce and tomatoes possible in the first place?

What we're doing is building an industrial power plant and making it available to all the energy ratepayers that are served by that community,” said Tom Sweeney, chief operating officer for the Colorado-based Clean Energy Collective, the largest “solar gardener” in the United States.

The company is one of a handful of companies nationwide with a similar business model. In some ways, the program works similarly to leased panels, except the consumer does not use the solar energy per se. Instead, the power is sent back to the Xcel Energy grid for general use and the Clean Energy customer receives a monthly credit. Depending on the time of year and one’s usage habits, a Clean Energy consumer – like a leased-panel customer – can accumulate credits in their "solar bank.”

Think of the summer months when there’s really high production and you’re on vacation,” Sweeney said. “Whatever credits you don’t use just roll forward.”

Unlike other long-term solar options, Clean Energy consumers need not worry about what happens when they move or about how long they plan to stay in their homes. Instead, consumers can simply take their “panels” with them, along with their satellite-television and cellular-phone accounts.

"The asset is transferrable, whether it’s from home to home or owner to owner,” Sweeney explained. “That means you could decide to sell your solar garden to somebody else. Some people have moved and donated their panels to charity.”

The bottom line, the COO says, is that the versatile nature of the Clean Energy product has created a thought-provoking alternative to — dare we say — the more “traditional” approaches to solar-power consumption.

"I don’t think we’re going to see the rooftop model go away,” he said. “But the overwhelming majority of the market cannot put panels on their rooftop — they don’t even own their rooftop. That’s certainly true for our commercial customers.”

Even local governments have staked their claim in Clean Energy’s solar garden, in part as a way to meet their own renewable-energy mandates. Cities such as Englewood have found good reason to purchase their arrays.

"They like the fact that these projects are available to all ratepayers,” Sweeney said of the Clean Energy business model.

The executive expects improving technology to make solar power even more accessible to the public in the future.

As production goes up and price goes down, you can build more projects and make it available to a broader market,” he said.

Dear Friends,

It’s heartbreaking when senior pets end up in a shelter. They’ve spent most of their lives with a family they love and a home of their own. They hold out hope, every day, waiting and waiting for their family to come, the family they miss and love so dearly. But their family never comes. They are passed over by other families who are interested in a younger pet, a pet that will be a part of their family for many years to come; a pet that won’t have medical complications in the near future; a pet that they won’t have to suffer the loss of in the near future. It takes a very special family to welcome a senior pet into their homes. **We want to extend our heartfelt gratitude to these families for helping and loving these special old souls and braving the difficult emotional challenges of old age.**

Senior pets have so much love to give. Please help us continue to give these special friends the time and medical attention they need to find that special family that will fill the remainder of their lives with love and kindness.

**Now is the time to help.** We have a generous donor that has pledged to match every contribution made during this campaign up to $10,000! Together, we can continue to provide love, hope and care to our senior friends.

Thank you for your faith and kindness. We encourage you to [CLICK HERE](#) to learn more about Mag and Cyrus. Their stories are touching examples of how we can help senior pets find love and happiness in their golden years. **Please, open your hearts and give today.**
About the Event:

On Saturday, September 6, 2014 the 7th annual Doggie Plunge at Pirates Cove Aquatic Center. Take the plunge with hundreds of four legged swimmers living it up, splashing and smiling in the last of the summer sun!

Throughout the day join families enjoying food trucks, activities and so much more!

The event will run from 9:00 a.m. – 3:00 p.m.

This is a benefit for Freedom Service Dogs – a charitable organization located in Englewood that rescues dogs from shelters and custom trains them to become service dogs for clients that include children, veterans and active duty soldiers, and other adults. Their disabilities include Autism, Traumatic Brain Injury (TBI), Cerebral Palsy, spinal cord injuries, Muscular Dystrophy, Multiple Sclerosis, and Post Traumatic Stress Disorder (PTSD). There are currently over 40 people on the wait list for a service dog. Each dog costs approximately $25,000 to rescue, feed, medically care for and train over the course of 9 – 12 months. And FSD does not charge the client a penny for the dog. All proceeds from this event will go to fund the rescue and training of more service dogs.

Overview

Denver is a popular market for developers, lenders, investors and renters. The metro area benefits from a healthy economy, an attractive natural environment and a welcoming attitude to newcomers. These factors combine to generate apartment development and demand.

Currently the amount of construction underway and planned is extensive, rental rates are subject to downward pressure due to new construction coming onto the market and vacancy rates are likely to rise, especially in 2015. Over the long term Denver remains an excellent market but it is important to be cautious and suspicious of hype.

The Denver Apartment Market

The apartment market in metro Denver contains over 191,000 units in apartment properties of fifty units or more. The City & County of Denver has the largest number of units, followed by Arapahoe County. Development is active in all seven counties, especially in Denver. Transit-oriented and downtown projects comprise many of the Denver projects underway and planned.

The following table shows, by county, the number of units existing, under construction and proposed at the end of the 2nd quarter of 2014. In addition are the number of units started and completed during the 2nd quarter of the year:

The Denver Economy

Apartment demand is driven by several factors, including population growth and the health of the local economy, measured mainly by the growth in employment. Apartment demand, measured as net absorption (occupancies minus departures) is also affected by demographics.

In Denver, for example, the influx of younger residents benefits apartment demand, as does the rising demand for apartments by older "lifestyle renters" who no longer desire the responsibilities of property ownership. To some extent the number of college and university students affects the market, especially in Boulder.

The following table shows employment and unemployment data from the U. S. Bureau of Labor Statistics for the nation, state, and metro Denver. State and metro data is for May 2014; US data is for June. The Bureau of Labor Statistics defines Boulder as a separate metro area for statistical purposes. Employment numbers are in millions. Change is from the same period one year before.

During the twelve month period ending in May the Denver metro area registered a net gain of 44,600 jobs. This type of economic expansion helps drive demand for all types of real estate, including apartments.

Denver continues to be mentioned on various "best of" lists, many of which are frivolous but others pertain to actual economic performance. Some of the ratings reported in the 2nd quarter of 2014 include:

- Denver was ranked third nationally for small business attraction by small business funder Biz2Credit.
- The US Census Bureau reported that metro Denver was the sixth fastest growing large metropolitan area in the nation between May 2012 and May 2013.
- Forbes Magazine ranked Denver the seventh best city nationally for the demographic category of younger people called Millennials, generally defined as those between the ages of 18 and 35.
- Two online real estate research firms, Homes.com and ForRentUniversity.com, ranked Denver as the seventh best city for new college graduates.
Several large employment announcements were also made during the 2nd quarter of 2014 that may affect demand for apartments:

- The US Patent and Trademark Office opened its first branch office in the western US, employing about 120 people downtown. Though not a major creator of jobs, the office will allow regional businesses better access for registering trademarks and obtaining patents, thus enhancing Denver's role as a business center.
- Lockheed Martin Space Systems will add about 350 jobs to its manufacturing and research center on South Wadsworth Boulevard in southern Jefferson County.
- Layer3TV, a video technology company, is moving its headquarters and 321 jobs from Boston to LoDo.
- Charles Schwab is relocating about 1,000 positions from its headquarters in San Francisco to several regional offices. Schwab is currently building a large new office campus in Lone Tree and may relocate some of those positions to Denver, although no formal announcement has yet been made.

Denver Apartment Market Conditions

For purposes of vacancy rates, net absorption and rental rates, we use data supplied quarterly by the Apartment Association of Metro Denver. We have concerns about some of the methodology used in the report, so it is best to consider trends instead of actual numbers.

On development activity, however, construction starts and completions are based on actual quarterly visits by James Real Estate Services staff to the locations of every apartment community under construction or proposed in metro Denver.

Note: 2014 year-to-date vacancy and average rental rates are for the 2nd Quarter. Otherwise, vacancy and rental rates are for year-end.

An indication of our concerns about the AAMD report methodology is evident when comparing the number of units completed during the first half of 2014 with reported net absorption. The AAMD report shows a declining vacancy rate even though completions well exceeded net absorption, statistically an unlikely situation. To some extent this is likely due to the AAMD report undercounting the number of units actually completed and added to the rental market.

There were no apartment properties on which construction was completed during the 2nd quarter of 2014 in Arapahoe, Broomfield, Douglas or Jefferson counties.

Vacancy Rates

The vacancy rates reported below are from the 2nd quarter 2014 report from the Apartment Association of Metro Denver. As mentioned above, we have concerns about methodology, and therefore, accuracy, so we recommend that attention be paid mainly to trends.

Studio apartments, also called “efficiencies” by some, are returning as a popular unit type, especially in new upper-rental range apartment communities. Many of these projects are oriented to younger residents who are attracted to urban locations and amenities but prefer to live alone and do not need large apartment units.
The following table shows vacancy rates by unit type since the end of 2009:

Note: 2014 year-to-date vacancy rate is for the 2nd Quarter. Otherwise, vacancy rates are for year-end.

Vacancy rates often fluctuate due to the addition of new properties to the market. As reported above, there were, at the end of the 2nd quarter of 2014, nearly 18,000 units under construction in metro Denver, of which 43% were in the City & County of Denver. Many of the new properties will be leasing units at the upper end of the rental spectrum, which raises concerns for overbuilding, especially in the second half of 2014 and in 2015.

The Apartment Association of Metro Denver combines Boulder and Broomfield counties for the purpose of measuring vacancy and rental rates. The following table shows vacancy rates by county:

Note: 2014 year-to-date vacancy rate is for the 2nd Quarter. Otherwise, vacancy rates are for year-end.

Based on our analysis of the AAMD methodology we believe that the actual vacancy rate in metro Denver is likely to be in the 5.5% to 6% range. It will vary, of course, by location, type of unit, class of property and rental rate. Since a 5% to 7% vacancy range is usually considered a balanced market the current situation is not highly disturbing, but the vacancy trend is upward.

**Rental Rates**

The following table shows average rental rates by county since 2009 when the market began to recover from the effects of the Great Recession. Although the Apartment Association of Metro Denver report indicates that average rental rates for metro Denver have risen 27.6% between 2009 and 2013 it should be taken into consideration that these are not “same store” rental rates and include the addition of new properties, many of which have rental rates well above average...
for the market as a whole. The average rental rates reported, therefore, are somewhat inflated when compared to previous years.

Average rental rates reported by the AAMD also do not take into consideration the effects of "specials" and concessions, a situation that is beginning to once again arise in some submarkets and which will be more evident over the next eighteen months.

The Apartment Association of Metro Denver report, for purposes of data on rental rates and vacancy rates, combines survey results for apartment communities in Boulder and Broomfield counties.

The table showing rental rate trends by unit type also includes, in the overall average, a smaller number of other units types, such as two bedroom/one bath apartments and four bedroom apartments. The large increase in the average rental rate for studio apartments is due to previously mentioned advent of new units in that category.

In 2013 investors set a metro Denver record with apartment sales of nearly $2.9 billion. That record was easily surpassed in just the first half of 2014, with Costar Group reporting over $3.7 billion in apartment sales, including several large portfolio transactions. During the 2nd quarter of 2014 alone there were 104 sales of properties containing fifty units or more, for an average sale price of $121,063 per unit. Brokers are happy.

According to brokers who specialize in apartment sales, buyers include local investors, real estate investment companies and a range of national and international institutional investors, including real estate investment trusts and life insurance companies. Acquisitions have included both existing apartment properties and those under construction.

**Forecast**

The potential exists for a softening market during the latter half of 2014 and especially in 2015. We expect a total of about 10,000 units to be completed in metro Denver in 2014 and possibly as many in 2015.

To put the situation into a longer term perspective, consider the following:

- Many local real estate professionals consider 5,000 to 6,000 units to be the “normal” annual net absorption for apartments in metro Denver.
- Over the past ten years net absorption, according to the Apartment Association of Metro Denver, has averaged only about 3,000 units per year. This amount is due to several factors, including the effects of the Great Recession and of competition from for-sale housing.
- Over the 45 year period from 1969 to 2013 metro Denver governments issued building permits for an average of 5,246 apartment units per year. The number fluctuated annually due to economic and market conditions, ranging from 208 to nearby 25,000 units.
- The AAMD estimated net absorption for the first half of 2014 to be 3,025 units. Should that number be matched in the second half of 2014 Denver’s annual net absorption for the year will be just at the top of the 5,000 to 6,000 “normal” range.
- With about 10,000 units likely to be completed and added to the market in 2014, the excess supply over demand would result in an increase in the metro vacancy rate and downward pressure on rental rates, especially in higher rental rate properties.

If the potential exists for overbuilding at the upper end of the market, that is not a concern at the lower end. There is strong demand for affordable housing in metro Denver that is simply not being met. Some local governments and the Colorado Housing and Finance Authority are working to fill the gap but cutbacks in federal funding are a barrier to construction of more affordable units, whether in the “workforce” or senior categories.

A competing factor for apartments is for-sale housing. This would normally be a special case with condominiums, but the inventory of units is quite tight currently. Few new condos are being built in metro Denver, mainly because of the potential for construction defects lawsuits from buyers and homeowner associations. Attempts have been made in the Colorado legislature to change the laws allowing such suits but they have been unsuccessful.

Overall, since supply is known, it all boils down now to demand. We recommend that readers maintain a healthy skepticism and reject the exuberance that is all too present in the media about the apartment market in metro Denver. This is not restricted to Denver; we see similar issues arising in other popular growth markets in the US, especially Atlanta, Austin, Charlotte, Dallas and Raleigh-Durham.

All that being said, Denver is an excellent long term market. Investors continue to seek product here, and the sales volume is extensive. How long that will last is open to question, especially if the market deteriorates substantially.

**Methodology**

The properties included in the Apartment Perspective report exclude student-specific housing and senior housing for which large upfront “buy-in” fees are required for occupancy. Regular age-restricted independent living for-rent senior housing communities are included. Otherwise, the report covers all apartment properties of fifty units or more contained in Adams, Arapahoe, Boulder, Broomfield, Denver, Douglas and Jefferson counties.
Information provided in this report is obtained from published sources such as Pierce-Eislen, the US Bureau of Labor Statistics, the Home Builders Association of Metro Denver, CoStar Group, the AAMD Apartment Vacancy and Rental Survey and from local government agencies. We also check building permits, rezoning applications, planning board agendas and concept and site plan submissions on a monthly basis, often following up with conversations with city and county planners.

James Real Estate Services, Inc. also conducts independent research, including quarterly field visits to all apartment projects that are currently under construction or proposed to determine their actual status. Building permits and certificates of occupancy are inadequate for thorough research; doing actual site checks is much more accurate.

A long time Alexan apartment resident recently contacted the City Manager’s office with concerns regarding children playing in the fountain water during severe weather events. The resident requested that signs be installed to warn children and others about the danger of lightning.

The Englewood Environmental Foundation, Inc. (EEFI) manages the common area of CityCenter Englewood. EEFI ordered and installed signage last week (see attached photo).

MEMORANDUM

TO: Gary Sears, City Manager

THROUGH: Rick Kahm, Director of Public Works

FROM: David Henderson, Deputy Public Works Director

DATE: August 28, 2014

SUBJECT: PROJECT UPDATE – Duncan Park Improvements, Street Maintenance Projects 2014, Belleview/Logan Traffic Signal Work, Concrete Utility Project 2014, Little Dry Creek Plaza Repairs, Flood Middle School Redevelopment, Security Camera Project, Servicenter Stormwater Improvements, The Englewood Campus, Craig Hospital Expansion, Xcel Energy Projects, Kent Place, CityCenter Site Development, Englewood McLellan Reservoir Foundation, Air Quality/Energy Savings Projects

DUNN ANK PARK IMPROVEMENTS
Council awarded a construction contract to American Civil Constructors (ACC). The project is being constructed in two phases to keep a portion of the park open. The south half, containing the majority of the work, is Phase I. ACC continued forming and pouring path and sidewalks. Playground equipment installation is approximately 80% complete. Sport Court construction is anticipated to begin next week and the pre-fabricated restroom facility is expected to be delivered the week of September 8th. Staff monitors the project daily to assure compliance with the project specifications and to minimize impacts to the adjacent neighborhood. The anticipated project completion date is September 30th.

STREET MAINTENANCE PROJECTS 2014
Staff finalized a list of streets for the 2014 in-house overlay program. The list and a map are posted on the City’s website. Street Division crews have completed approximately 70% of the in-house overlay program. Schedule information is posted on the City’s web site. Street crews continue doing roto-milling for the City of Littleton when needed (Thursday and Friday this week). Littleton does street striping and painting for Englewood in exchange for the roto-milling work. Street crews continue work on other maintenance activities (sweeping, pothole repair, utility cut repairs, weed removal, debris pick-up, and alley grading) as time allows. Rain has delayed some of the planned alley maintenance activities this week.

BELLEVIE/LOGAN TRAFFIC SIGNAL WORK
W. L. Contractors has begun work for CDOT to replace the State’s traffic signal at Belleview and Logan. Staff is monitoring the project to minimize impacts to traffic.

CONCRETE UTILITY PROJECT 2014
NORAA Concrete Construction has substantially completed the 2014 Concrete Utility Project. Punch list items remain and should be completed next week. Questions regarding the program should be directed to the Concrete Utility, 303-762-2360 or 303-762-2360.

LITTLE DRY CREEK PLAZA REPAIRS
City Council approved a motion to award a contract to Straight Line Concrete Sawing at the June 2nd City Council meeting. Straight Line continued irrigation, soil prep, and planting installation.
**Flood Middle School Redevelopment**

Wood Partners' contractor completed erecting the parking garage for Phase I (Broadway to Lincoln).

Parking Garage work for Phase II (Lincoln to Sherman) continued. Framing of the Phase I residential units is underway.

Traffic Engineering completed installation of new left turn arrows (for northbound and southbound traffic) at the Broadway/Kenyon traffic signal. The developer paid for this work.

**Security Camera Project**

The security camera project continues with implementation at the following sites:

- **Police**: Installation of the exterior pole and camera will be completed September 12th.
- **Service Center**: Installation is 95% complete.
- **Pirates Cove**: Wireless antenna installation will be completed on September 10th.
- **Golf**: Wireless antennas have been ordered; Long is working with the City on an acceptable installation date.

**Servicenter Stormwater Improvements**

Design of a new vehicle wash facility at the Servicenter continued. See Architecture was awarded a design contract at the April 7th City Council meeting. The project includes an addition to the south end of the garage to accommodate an enclosed vehicle wash bay, along with a fluid distribution station. Public Works staff and the design team toured existing facilities in Castle Rock, Golden, and Broomfield. The site visits provided valuable information regarding what we like and don’t like about other facilities and will assist us during the design process.

**The Englewood Campus**

Englewood School District continues construction of the new campus on South Logan Street. Phase 2 public right-of-way work on S. Logan Street and Mansfield Avenue is substantially complete. Staff is monitoring the public right-of-way construction to assure conformance with approved plans and agreements.

**Craig Hospital Expansion**

Construction of the new campus continued. Improvements to the intersection of Girard and Clarkson are substantially complete and the intersection has been reopened to traffic. The intersection was reconstructed with new concrete pavement, crosswalks, and accessible ramps at the corners.

**Xcel Energy Projects**

**Gas Line Replacement Projects**

Xcel is planning to begin pavement restoration in the 1500 – 1700 blocks of E. Dartmouth Avenue the last week in August. Pavement restoration in the 4300 block of S. Logan Street, due to unexpected gas line repairs in that block, are expected to be scheduled in the near future.

Staff continued reviewing additional Xcel permit requests including Union Avenue at Santa Fe.

Xcel notified Public Works of a major upcoming gas main replacement project. The project is expected to replace 78,000 feet of gas main in Englewood over the next four years. Staff met with Xcel to discuss the proposed project. Updates will be provided as information and tentative schedule are available.

**Kent Place**

The contractor continued work on the residential apartments.
CITY CENTER SITE DEVELOPMENT
Alexan East and West Parcels
438 residential units. Alexan’s occupancy level for October, 2013 is 95%. Commercial uses: Let It Bead, Bleum (computer software), State Farm, Lifetime Family Practice, Cuttin’It Loose, CityCenter Community, Nixon’s Coffee House, King Liquor Store, BRI Colorado (showcase room) and Metro PCS.

Parkway Retail / Office Buildings
Commercial uses: The International House of Pancakes (IHOP), Qdoba, GNC, Supercuts, Nails Center, CityCenter Dental Group, Tableaux Interior Design, Edward Jones Investments, Englewood Eyecare, Collective Licensing Int’l, Inc., Quizno’s, “Insurance Company of the West”, Champions Dance Sport, Wellness Treatment Center, XL Edge, Checkout Promos (Advertising firm).

ENGLEWOOD MCLELLAN RESERVOIR FOUNDATION (EMRF)
PA-84 West
The Mike Ward Infiniti dealership opened on Monday, August 29, 2011.
The Larry Miller Nissan Dealership opened on February 11, 2012.

PA-85 (Benjamin Franklin Charter School)
The Benjamin Franklin Charter School is open.

AIR QUALITY / ENERGY SAVING PROJECTS
Flex Fuel Program
Currently, 39 of our fleet vehicles are running on E-85 ethanol fuel. All new replacement vehicles (less than ¾ ton) will be compatible with E-85. Currently, the cost of E-85 fuel is approximately $0.40 per gallon less than regular unleaded gasoline. Ten of our fleet vehicles run on Compressed Natural Gas (CNG). 39 on-road vehicles and 23 off-road (construction equipment) run on biodiesel fuel.

“Green” Programs
We continue to work with our vendors to expand the Green product line as it becomes available. 90% of our custodial paper supplies are from recycled sources. The Servicenter is now “single-streaming” waste at the Servicenter and a dumpster has been supplied for cardboard only recycling.

Energy Saving Projects
In 2001, the Public Works Traffic Division began an ongoing program to convert traffic signals from incandescent lamps to Light-Emitting-Diode (LED) bulbs. To date, 80% of our City maintained signals have been converted. LED traffic signals use 90% less energy than incandescent lamps, last five times longer, and provide better visibility.

COMMUNITY DEVELOPMENT MONTHLY UPDATE
August 2014

DEVELOPMENT REVIEW PROJECTS

- **3550 South Inca**
  - A DRT meeting was held in May with the architect for the Rocky Mountain Veterinary Neurology Clinic. The plans call for demolishing the existing building and constructing a new 10,000 SF facility.
  - The property owner has reduced the size of the building to approximately 8,000 square feet and anticipates submitting for a building permit this summer.
  - Construction drawings for a building permit have been resubmitted and are currently under review.

- **Englewood Shrine Club (Floyd and Logan)**
  - Project: Two dwelling units in the existing Shrine Club building with detached garages and one accessory dwelling unit; two new single family homes with detached garages and two accessory dwelling units; Maintenance of the existing single family home at 3265 South Logan Street
    - City Council approved the PUD request on June 16, 2014.
    - The PUD and Subdivision documents are in the process of being signed and recorded.

- **Flood Middle School Redevelopment (Broadway and Kenyon)**
  - Project: 306 luxury apartment complex
    - A Building Permit was issued on January 3, 2014 for construction. Construction is underway.

- **General Iron Works (Bates and Galapago)**
  - Developer submitted for a DRT meeting to develop the southeast corner of the Sand Creek property with a multi-family project consisting of 70 units.
  - Developer submitted application for tax credits to CHFA.
  - The developer is tentatively hosting a neighborhood project information/update meeting in early August.
  - The developer held a neighborhood meeting on August 11th. Approximately 35 people were in attendance.

- **Hill Top Motel (3800 South Broadway)**
  - The property sold in mid-June to an investor / developer that is exploring options for the property.
  - The property owner is seeking tenants for this site and staff continues to forward viable prospects to the property owner for consideration. The new property owner is considering a partial demo and rehabbing the free
standing building. A temporary fence was installed on the property to keep out vagrants.

Kent Place (University and Hampden)
Project: 300 for-lease residential units; 48,175 square feet of retail/commercial
  o The commercial and retail space is 100% leased.

  - On August 21, the Authority unanimously voted to pursue exclusive negotiations with Medici Communities on the Acoma/Broadway/Englewood Parkway property. City Council will be briefed on the project at the September 3 Study Session.
  - An Option Agreement and Sale and Development Agreement were approved by EURA on June 11, 2014.
  - Medici submitted a tax credit application to CHFA on July 1, 2014.
  - **Staff met with a representative of CHFA and Medici on August 13th on site to discuss the project.**
  - The Title Insurance Commitment and ALTA survey have been provided to Medici per the Sale and Redevelopment Agreement.

- **Comprehensive Plan Update**
  - Community Development is engaging multiple City departments to assist with the DRCOG Boomer Bond Assessment this summer in preparation for the fall kickoff of the Comprehensive Plan Update project.
  - An RFP for consultant services was released in June, with the final selection to be made in August and Council approval by motion in September.
  - Three proposals were received and the review teams are in the process of going through each of the proposals and ranking them according criteria contained in the RFP’s. Interviews are scheduled for early August.
  - **Logan Simpson Design has been selected as the consultant to undertake the Comprehensive Plan update. Council approval of the contract is scheduled for September 15.**

- **Kaiser Permanente Englewood Walk and Wheel Master Bicycle and Pedestrian Plan**
  - The City received a $99,999 grant from Kaiser Permanente. Community Development staff and the Kaiser Permanente Technical Assistance Team have developed a final scope of work for the project.
An RFP for consultant services was released in June, with the final selection to be made in August and Council approval by motion in September.

Three proposals were received and the review teams are in the process of going through each of the proposals and ranking them according criteria contained in the RFPs. Interviews are scheduled for early August.

OV Consulting has been selected as the consultant to prepare the Englewood Walk and Wheel Master Bicycle and Pedestrian Plan and Program. Approval of the contract is scheduled for September 15.

ZONING

PUD Process Amendment

On September 4, 2013 Planning & Zoning Commission reviewed proposed changes to the PUD review process. The Commission supports the two-step process, which allows a District Plan and Site Plan to be reviewed separately, allowing developers some level of entitlements before proceeding with a more detailed site plan.

Study Session with Planning & Zoning Commission is scheduled for April 8, 2014. A public hearing with Planning & Zoning Commission was held April 22, 2014. The Commission voted 9-0 to forward to Council with a recommendation for approval.

Additional review by City Attorney's office requires amendments and another public hearing with Planning & Zoning Commission. The public hearing is anticipated for Fall 2014.

Small Lot Development Standards

The Planning Commission recommended approval of the Small Lot Development Standards at the November 19 public hearing.

Additional review criteria and a change in appeal process recommended by City Attorney's Office. An additional public hearing with the Planning and Zoning Commission is scheduled for March 4, 2014.

Tentatively scheduled for 1st reading at the July 21, 2014 City Council meeting.

A public hearing was held at the August 4, 2014 City Council meeting.

The City Attorney is working on establishing a process for appeals to the City Council.

Transit Station Area Zoning Regulations

Staff is working with the Planning and Zoning Commission to revise Transit Station Area (TSA) zoning regulations that will eventually be adopted for portions of the Englewood Light Rail Corridor.

ART SHUTTLE

The Intergovernmental Agreement (IGA) between the City of Englewood and RTD for 2014 funding of the art shuttle was approved on March 17, 2014. Through the
IGA, RTD will provide $257,411 for shuttle operations, maintenance, and fuel. The City’s share will be $59,838.

- The Shuttle Services Operations Contract with MV Public Transportation, Inc. was approved by Council on March 17, 2014. The contract covers the operation and maintenance of the art shuttle for 2014 for a total contract amount of $268,729.20.

**BUSINESS NEWS**

- Economic Development and Project Update presented on Wednesday, August 20. Approximately 25-30 business leaders attended the event. A copy of the presentation is available at the following link: [http://englewoodgov.org/home/showdocument?id=10798](http://englewoodgov.org/home/showdocument?id=10798)

- Arapahoe County Enterprise Zone
  - The State’s Economic Development Commission approved a $16,300 matching grant to support the administration of the Arapahoe County Enterprise Zone. OEDIT staff is drawing up the grant contract and this will be sent to Council for approval on June 16.

- Commercial Catalyst Program

*Other Business Activities:*

- 2749 South Broadway – Vacant thrift store recently sold and will be remodeled for use by another retailer. Property is cleaned up and cleaned out and the owner is seeking viable tenant(s). Several prospective tenants have expressed an interest in this location and staff is working with the listing broker to stay informed about prospective users for the site. The owners are interested in installing a new store front entryway and glazing. This activity is being taken to dress up the building and make it more attractive for prospective tenants. Commercial Catalyst grant application under review. **The property is under contract with an entrepreneur seeking to build out the space as a restaurant / bar.**

- 180 East Hampden – The property is under new ownership. Staff has contacted the new owner to discuss a possible catalyst grant to support facade enhancements. Commercial Catalyst grant application approved. Two new tenants have leased space in the building. **One tenant is an ophthalmologist; the other is an OBGYN. Approved Commercial Catalyst grant for exterior renovations.**
- Chase Bank - A 5,000sf pad site is being considered for construction at the Chase Bank property. This pad site would be adjacent to US 285 and S. Elati Street.
- Landmark Lincoln - The property owner for Landmark Lincoln is working towards a substantial façade enhancement. This project involves a significant investment in rebranding the building to be consistent with corporate requirements and involves a small expansion of the building. **Facade renovations are underway.**
- 65 West Floyd - The owner is considering a major remodel for this building and will seek to attract new tenants for the newly vacated space. A distillery is seeking 3,000 square feet of space in this building. Tenant finish plans are being rendered and a lease is pending. A second distillery is seeking space in this building. The architect for this project was also involved in Mickey Zeppelin’s Taxi Development. The distillery (Devils Head Distillery) has signed a lease for 3,000 square feet of space. The Distillery was recently approved as a conditional use and we anticipate tenant finish permits to be submitted shortly.
- 2950 South Broadway - Tocabe American Indian Restaurant considering space at this location. This would be their second Denver-metro location. Staff met with the ownership and discussed potential sites for this innovative Native American eatery. The owners are no longer considering 2950 South Broadway due to limited visibility, but are open to considering other viable site options. Staff has provided 2 alternate sites for consideration by this restaurateur.
- Catholic Store - Staff met with the owner of the building. The property is currently fully leased with the new tenant “Vapes.” While a business license has not been submitted we understand that this business will sell vapor cigarettes.
- Odd Fellows building - Staff has contacted the owner of this property to discuss historic preservation tax credits and other programs that might be of interest to support investment and building revitalization. The building owner indicated that a new tenant has taken the vacant ground floor retail space - The Blue Chair.
- 3999 South Broadway (formerly Jasmine Asian Cuisine) is under contract. The investor is seeking tenants and is meeting with viable restaurants. Staff has provided information on this new listing to Tocabe. This property sold to an investor that will lease restaurant space to a wine and tapas bar. The property owner will seek a tenant for the front portion of the building (formerly Molly’s Closet). A wine and tapas bar will open in the space formerly occupied by Jasmine Restaurant. Staff is talking to the property owner about putting a small gallery in the space vacated by Molly’s Closet.
- 750 West Hampden (Omni Development). Staff met with the owner of this property about tenant or redevelopment ideas. The potential for a Small Business Investment Center (tenant) to lease space is still viable. This user would be the first SBIC in Colorado and provide financing options to businesses. Staff also responded to a business prospect from the State’s Office of Economic Development and International Trade for a call center user seeking 50,000 square feet of space. The property owner is interested in a tenant retention / expansion initiative to retain Karcher, a tenant that currently occupies 25,000 s.f. of office and has 130 employees. This investment will involve the expansion into 150,000 square feet of space. The tenant is looking outside Englewood, but efforts by the City and property owner are being undertaken to retain this business. **Provided property listing to**
Metro Denver EDC for a prospect seeking a 35,000 square foot call center. This business would generate 300 jobs.

- 501 West Hampden (formerly Bank of the West) is under new ownership. The project involves a bank and one or two tenant spaces that would be ideal for a quick serve restaurant - patio space is available. The developer has identified prospective restaurant tenants and has a letter of intent (LOI) from a restaurant user.

- CityCenter Englewood tenants. A short term tenant has leased space on the north plaza, near City Center Communities. This tenant will translate texts into audio books for the disabled. One space remains for the ground floor commercial. The former Sports Authority retail space will be occupied by Harbor Freight and open at the end of July. The tenant is expected to be a substantial sales tax generator. There is an additional 9,500 s.f. of space available in the building and Weingarten is seeking viable tenants for this location. Harbor Freight Tools celebrated its grand opening on August 13.
