**Englewood Parks and Recreation is a National Recreation and Park Association Gold Medal Finalist**

Celebrating its 50th anniversary with NRPA and founded in 1965, the Gold Medal Awards program honors communities in the U.S. that demonstrate excellence in parks and recreation through long-range planning, resource management, volunteerism, environmental stewardship, program development, professional development and agency recognition. Applications are separated into seven classes, with five classes based on population, one class for armed forces recreation and one class for state park systems awarded on odd numbered years.
The City of Englewood Parks and Recreation Department is a finalist in the Class IV category. Agencies are judged on their ability to address the needs of those they serve through the collective energies of citizens, staff and elected officials. Englewood joins three other finalists in their class that will compete for grand honors this year.

This year’s finalists will compete for Grand Plaque Award honors this summer, and the seven Grand Plaque recipients will be announced live during the Opening General Session at the 2015 NRPA Annual Conference in Las Vegas, NV, Sept. 15-17. Remembering the Flood of 1965

By Victoria Sutton
YourHub Contributor

The Flood of 1965 changed lives and businesses, land and ecosystems. But nature always has a way of breathing new life after a dark time. When it came to the flood aftermath of 1965, people also breathed new life and saw the light born of a disaster. People stayed. They rebuilt. They changed laws. They supported each other in their endeavors. They had a vision for their community and their environment, and the benefits still affect the region for the better.

This June, reflect on the 50th anniversary of the flood and celebrate the vision and positive transformations that have risen, including the creation of South Platte Park. When the flood ripped through Littleton, it left not just debris and scars, but possibility. Chatfield Dam was constructed and the plan for South Platte River wasn’t what the community wanted. It was to be channelled and lined with rock, but Littleton’s community leaders headed to Washington. Because federal funds were allocated and authorized by Congress, it took an act of Congress to reverse the decision. The funds allocated for rocks and channels instead bought the land that is now the majority of South Platte Park. It was the first movement to turn a floodplain into a park.

On June 16, South Platte Park will hold a community event to remember the Flood of ’65 and to celebrate the positive changes that came from it. It will take place at Aspen Grove Lifestyle Shopping Center, and will include hayrides through the park, an easy guided hike along the river, live birds of prey, Kids Fitness Van, face painting, an interactive river table, booths and activities, a bounce house and an outdoor film at dusk. This family-oriented event is free, open to people of all ages, and stories are welcome. It begins at 6:30pm. Aspen Grove is at 7301 S. Santa Fe Drive. To learn more, call Victoria at 303-730-1022.

Victoria Sutton is a park interpreter at South Platte Park.

She explained the reasoning for previously adding commodities to the asset allocation and the current commodity funds the Board has chosen. Commodities are seen as a hedge against inflation and a diversifier in the portfolio. Innovest is recommending keeping commodities and rebalancing to be closer to the five percent asset allocation target.

Ms. Dominguez explained the differences between the PIMCO Commodities and the Credit Suisse Commodities Funds the funds that Plan currently holds. Innovest recommends selling PIMCO and add more to the Credit Suisse and rebalance the assets. She also explained that the Credit Suisse is based on the Bloomberg Commodities Index and Innovest likes the allocation of this index.

a. Update Optional Factor Assumptions

Mr. Herm provided an update about the new mortality tables as discussed at the last Board meeting. He commented that large plans typically wait to update the tables until after the next experience study is completed and that happens every five years. He was not aware of any GRS plans changing to the new tables. GRS recommends waiting before making the change.

Mr. Moore would like to request a study with the actuarial report to see the impact of moving to the new mortality tables to allow the Board to continue discussion related to the tables.

MR. MOORE MOVED TO INCLUDE A STUDY OF THE NEW MORTALITY TABLES WITH THE JANUARY 1, 2015 ACTUARIAL REPORT. MR. GRYGLEWICZ SECONDED.

Staff Presentation
Brook Bell, Planner II, was sworn in. Mr. Bell reviewed the application for an addition to a structure on a non-conforming lot at 460 East Yale Avenue.

Staff recommends that the Planning and Zoning Commission approve the case based on the documents submitted by the applicant. Mr. Bell presented slides with illustrations of the proposed development.

The proposal was reviewed by six departments and there were no objections. The lot is irregular and is surrounded by single family homes. The lot was not platted and was annexed by Englewood in 1958. The existing house is 388 square feet and the two story addition will add approximately 427 square feet for a total of 815 square feet.

The proposed changes to the property comply with lot coverage, height limits and bulk plane requirements in the R-1-C zone district. The existing structure is twenty feet (20') into the twenty-five foot (25') front setback and the rear of the house encroaches thirteen feet (13') into the rear setback. The proposed addition would only encroach fourteen feet (14') into the front setback. The structure does not encroach into the side setbacks.
The only permitted use for an Urban Lot in the R-1-C zone district is a one unit dwelling. Mr. Bell outlined the components of the Comprehensive Plan that support approval of the application.

Mr. King asked if the encroachment into the front setback is the only issue; Mr. Bell responded yes.

**Applicant Presentation**

Jennifer Danielson, 460 E. Yale Avenue, was sworn in. Ms. Danielson has owned the property for approximately four years. She likes the Englewood neighborhood and with the improvement to her home feels that it will be more livable and attractive.

**Public Comment**

No members of the public were present.

King moved;  
Knoth seconded: To close the Public Hearing for Case #ADM2015-013 Non-Conforming Lot 460 East Yale Avenue

AYES: Bleile, Brick, King, Kinton, Knoth, Madrid, Fish  
NAYS: None  
ABSTAIN: None  
ABSENT: Freemire, Townley

**Discussion**

Mr. Bleile- Based on the fact that this is an improvement in the housing stock as outlined in the Comprehensive Plan, he votes yes.

Mr. Brick- Citing the staff report, the non-conforming lot can be altered by the Planning and Zoning Commission and through waiver and modification. According to the information contained in the staff report, the property meets all of the criteria for such waiver and modification.

Mr. King- In the spirit of the Comprehensive Plan and Zoning Code, the modifications fit nicely. Other than the issue of the front setback, which does not impact Yale Avenue, he votes yes.

Mr. Kinton – Agrees with the previously expressed opinions, this is supportive of enhancing the housing stock, he votes yes.

Mr. Madrid – For reasons previously expressed, he feels that this is a creative solution for that lot and votes yes.

Chair Fish – The property meets all the criteria for such action and he concurs with the other members of the Commission.

King moved;
Knoth seconded: To approve Case #ADM2015-013 Non-Conforming Lot 460 East Yale Avenue

AYES: Bleile, Brick, King, Kinton, Knoth, Madrid, Fish
NAYS: None

There were no members of the public present.

VI. ATTORNEY'S CHOICE

Deputy City Attorney Comer did not have any comments for the Commission.

VII. STAFF'S CHOICE

Chris Neubecker asked the Commissioners to identify dates for future additional meetings to address the Comprehensive Plan. It was agreed that May 20th and May 27th were generally acceptable. The Commissioners were reminded of the Business Summit taking place on May 14th.

III. STUDY SESSION

Romans Park

a. Very little commercial activity
b. Four block area in the southwest portion of the area identified for potential townhome development; currently zoned R-1-C
c. Charles Hay Elementary will remain a school site
d. The northwest corner of University and Dartmouth will most likely be redeveloped (church building, school PUD)

Bates-Logan Park

a. Park improvements would make the area more attractive.
b. Possibly integrate the Bates Logan park with the Charles Hay school playground.

Cushing Park

a. Area suffers uniformly from blight throughout and is in need of redevelopment, many rentals and duplexes.
b. The General Iron Works property influences the neighborhood, however the owner/developer is in the process of developing plans for a potential residential development.
c. The small industrial area in the neighborhood could potentially become residential; there will be bus transit in the area soon.
d. As a major street in Englewood, Dartmouth improvements could include accommodation for cyclists.
e. Consider altering the wall and restriping along Floyd Avenue to make the route more user-friendly.
f. Bishop Elementary is the most likely of the Englewood elementary schools to be closed in the future as the lot is not large enough to construct a new building while using the existing facility.

Medical District

a. The area south of the hospital and north of US 285 is in need of redevelopment.
b. The development market is becoming very active and larger projects are anticipated to begin in the next 2-3 years.
c. Additional retail and dining would meet the objective of making the area more walkable.
d. The Commissioners agreed that increased building heights are desirable in the Medical District.
e. Ensure that there is opportunity for diverse housing development to accommodate workers from the hospitals.
f. Possibly vacate a portion of old Hampden to spur walkable development of the medical campus near the hospitals.
g. Possibly change the R-2-B area to a mixed use zone to spur development of retail and high density office/housing.

Mr. Stitt commented that while he is happy to hear the Commissioners identify areas by zoning, he encouraged the Commissioners to think of what the zoning could be to help achieve the goals of the City. Zoning can be used to protect those areas without catalytic activity.

VIII. COMMISSIONER’S CHOICE

Mr. Brick commented on the Railroad Preservation seminar that he attended recently at the Malley Center. He would like to see the City encourage smaller groups to come to Englewood for their meetings.

Mr. Madrid commented on the issue of abandoned shopping carts in the neighborhoods.

The meeting adjourned at 8:55 p.m.
