Council’s Economic Development incentive Policy

In September of 2012, City Council adopted an Economic Development Incentive Policy to assist economic development efforts and foster diversification of the economic base. City Council may consider rebates to support priority projects on a case-by-case basis. Attached is a copy of the Economic Development Incentive Policy, Resolution Adopting Policy, and spreadsheet of all projects funded under this Policy.

Commercial Catalyst Program

Council authorized the South Broadway Action Plan in 1997. The action plan included the Commercial Catalyst Grant program to revitalize and beautify the commercial corridor. The catalyst program is funded in the Community Development Department’s annual operating budget.

The catalyst program provides funding assistance for storefront upgrades, landscape upgrades, ornamental ironwork, and qualified code-driven interior improvements. The City’s investment in this program is intended to be highly visible and most of the participating businesses are retail in nature or enhance the employment base in Englewood. Attached is a copy of the Commercial Catalyst Program Workbook 2012 thru 2015.

Habitat for Humanity Fees Waived

Council authorized fee waivers for the following Habitat for Humanity projects.

City of Englewood

Economic Development Incentive Policy

Goal Statement

The City of Englewood is supportive of business attraction and development-related projects and is committed to supporting new opportunities to diversify the local economy. Englewood strives to provide for the fiscal health of the community by creating mechanisms to assist targeted businesses, priority development sites, and projects that enhance the quality of life and fiscal condition of the community.

Intent/Purpose

☐ Create a tool to assist economic development efforts
☐ Foster diversification of economic base, including expansion of retail sales tax base
☐ Assist in attracting desired businesses and development to City
☐ Assist in redevelopment or reuse of priority redevelopment sites

Eligible Uses of Incentive Funding

☐ Improvements to public infrastructure that benefit a larger area or the public at large, including but not limited to: street improvements, traffic signalization, sidewalks or trails, water and sanitary sewer lines, storm sewer lines, drainage improvements, water quality improvements, or electrical or natural gas lines.
☐ Costs incurred in eliminating features that detract from the surrounding neighborhood or render a site difficult to redevelop, such as undergrounding electrical lines, removal of environmental contamination, removal or relocation of utility substations or other facilities, or demolition or renovation of structures that are obsolete or in poor condition.
☐ Costs incurred in providing public spaces, landscaping, or elements of streetscape beyond that required by ordinances of the City.

Economic Development Criteria - Eligible Projects

☐ Retail developments or expansion of existing retail uses that will generate additional sales tax shall be a priority of the City.
☐ Office or manufacturing uses creating or adding jobs.
☐ Underrepresented or desirable retail establishments. (e.g. table-service restaurants, electronics and clothing stores)
☐ Residential projects that demonstrate benefit to the community, development on underutilized sites, or within proximity of light rail station or other transit amenity.
☐ Any project deemed by City Council to be unique, advantageous, or desirable additions to the community
☐ A determination of whether the project would proceed if the incentive is not provided.
Incentives are not intended to unduly enrich an individual developer or business or to create an unfair advantage.

A statement from the business or developer to verify the need for the incentive in terms of 'why this investment is necessary to foster the development or business activity.'

Cost Benefit Analysis

Staff will provide a cost benefit analysis for any incentive agreement. The three components of a cost benefit analysis are:

- Identify direct benefits: The true measure of project value includes all property taxes, sales and use taxes, impact fees, licenses and permit fees.
- Calculate impact of the project. Direct costs are matched against direct revenues. If costs exceed revenues, the desirability of the project needs further analysis. If the direct revenue exceeds costs the analysis can help identify the break-even point by determining the number of years it will take for the project to payback the incentives and other public costs.
- Identify direct public costs: In addition to the costs of incentives, all other direct costs associated with the project are totaled to include infrastructure costs, utility, increased fire, police and any other public expenses associated with the project.

The break-even point or payback period of the proposed incentive will be estimated.

Impact of the project on existing Englewood businesses will be analyzed.

INCENTIVE TYPES

Coordinated Development Approach
The City of Englewood is committed to providing exceptional customer service and ensuring that its applicants experience a quality development process. All projects are eligible for a formal in-person Development Review Team (DRT) meeting, in which the responsible City departments provide comments, suggestions, and recommendations prior to formal permit submittal to ensure an efficient and effective process.

Sales Tax Reimbursements
The City may consider a share-back or partial reimbursement of the incremental City collected portion of retail sales tax generated from the project. All proceeds of a sales tax reimbursement must be utilized for purposes outlined under “Eligible uses of incentive funding.”

Sales tax rebates shall not exceed 50% over the term of the agreement (with a maximum rebate to be determined by cost/benefit analysis) of the actual incremental increase in sales tax revenue generated by the use or site.
**Building Use Tax Reimbursements**
The City may consider a reimbursement of construction and equipment use tax generated by the development of a project. All proceeds of the use tax reimbursement must be utilized for purposes outlined under “Eligible uses of incentive funding.”

Building use tax rebates shall not exceed 50% (with a maximum rebate to be determined by cost/benefit analysis) of the actual use tax collected.

**Furniture Fixtures and Equipment Use Tax Reimbursements**
The City may consider partial or full reimbursement of the use taxes paid for furniture fixtures and equipment generated by a project. All proceeds of the use tax reimbursement must be utilized for purposes outlined under “Eligible uses of incentive funding.”

Rebates of up to 100% (with a maximum rebate to be determined by cost/benefit analysis) may be given for furniture, fixtures and equipment use tax.

**Tax Increment Financing**
The City may consider utilizing Tax Increment Financing (TIF) through the Englewood Urban Renewal Authority (EURA) only after an urban renewal area has been established. The City will only consider utilizing TIF for projects that are unique, significant in magnitude, and have considerable regional benefit. This could potentially include property taxes.

**Reduction in Fees**
The City may consider offsetting all or a portion of the development fees for commercial or residential projects that meet the goals and objectives of the Comprehensive Plan and Sub-Area Plans (if applicable), and provide a unique and quality project in terms of product type, tenant mix, and overall physical environment.

Rebates of up to 100% (with a maximum rebate to be determined by cost/benefit analysis) may be given for building permit fees and development application fees, not to include plan review fees or other contractual fees.

The City of Englewood is supportive of economic development and redevelopment related projects. City Council will consider financial incentives to support economic development and redevelopment activities on a case-by-case basis. The incentives outlined in this policy are provided at the sole discretion of City Council and are not to be considered an entitlement for any eligible or otherwise qualified project.
RESOLUTION NO. 74
SERIES OF 2012

A RESOLUTION ADOPTING "CITY OF ENGLEWOOD ECONOMIC DEVELOPMENT INCENTIVE POLICY" FOR THE CITY OF ENGLEWOOD, COLORADO.

WHEREAS, THE City of Englewood is supportive of business attraction and development-related projects and is committed to supporting new opportunities to diversify the local economy; and

WHEREAS, the Englewood Economic Development Incentive Policy provides a broad Goal Statement that states in part, "... to assist targeted businesses, priority development sites, and projects that enhance the quality of life and fiscal condition of the community"; and

WHEREAS, the Government Finance Officers Association (GFOA) recommends that jurisdictions using or considering the use of economic development incentives create a policy that, at a minimum, defines goals and objectives; the types of incentives and extent of their use; an evaluation process, i.e., cost/benefit analysis, and performance standards; and

WHEREAS, this Policy is consistent with the recommendation in the GFOA document; and

WHEREAS, adopting the City of Englewood Economic Development Incentive Policy establishes goals and objectives or parameters which may be applied to applications for financial assistance; and

WHEREAS, instituting the Policy also provides the parameters for staff to employ when responding to current and future private requests related to development projects that might go forward only with some form of City assistance;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ENGLEWOOD, COLORADO, AS FOLLOWS:

Section 1. The City Council of the City of Englewood hereby authorizes adoption of "City of Englewood Economic Development Incentive Policy," attached hereto as Exhibit A.

ADOPTED AND APPROVED this 4th day of September, 2012.
