Bulletin 20-07

REFERENCE: EMERGENCY REGULATIONS 47-302 (F) COVID-19 TEMPORARY MODIFICATION OF ON-PREMISES LICENSES AND 47-1102 COMPLIANCE WITH PUBLIC HEALTH ORDERS AND EXECUTIVE ORDERS ISSUED DURING DISASTER EMERGENCIES

DATE: May 15, 2020

Due to COVID-19, liquor establishments licensed for on-premises sales and consumption of alcohol beverages were closed, and take out and delivery methods were put into place. As Colorado now starts to re-open certain businesses, the Liquor Enforcement Division has been collaborating with local licensing authorities, various state and county public health departments, and various stakeholders, to re-open with limited capacity for on-site consumption of alcohol beverages and food service. It is, after all, the Division's mission "[t]o promote public safety, support economic growth, and the responsible sale and consumption of liquor and tobacco products, through the fair administration of liquor and tobacco/nicotine laws."

Emergency Regulation 47-302(F) is being adopted to allow on-premises liquor licensed businesses to apply for temporary modifications with their local and state licensing authority and to pre plan for temporary outdoor seating areas that support social distancing requirements. If your local jurisdiction does not have an approved variance, you are still unable to open at this time for on-premises consumption of alcohol beverages and food service, but you can begin planning for outdoor seating areas. If your local jurisdiction has obtained a variance which includes on-premises consumption, or when a Statewide Executive Order or Public Health Order is entered allowing bars and restaurants to reopen including for on-premises alcohol consumption, the temporary modification can be approved by the Division to permit licensees to begin operations as soon as permitted by executive and/or public health orders.

If the Local Licensing Authority has a licensee that this model will not provide relief please reach out to the Liquor Enforcement Division so we can work in partnership to review these matters on a case by case basis.

[Emergency Regulation 47-302\(F\)](#)

The temporary amendment to Regulation 47-302 1 C.C.R. 203-2, is available **only to on-premises**

businesses such as Hotel and Restaurant; Brew pub; Distillery pub; Vintner's Restaurant; Fermented Malt Beverage (FMB) on-premises; Tavern; Beer and Wine; Lodging and Entertainment; Optional premises license; Club license; Arts license; Breweries, Wineries and Distilleries with an approved sales room. This emergency regulation permits these on-premises licensees to temporarily expand their licensed premises into sidewalks, streets, and parking lots to increase social distancing measures while being able to operate a productive and economically sustainable business. This emergency regulation is not available to off-premises liquor licensees.

The emergency regulation requires that on-premises liquor licensees who want to apply for a temporary modification of premises must do so through both local and state licensing authorities, and pay all required fees upon submission of their application. For this COVID-19 relief measure of a temporary premise modification, licensees will only have to pay the initial application fee to turn the modification on. There will be no fee to turn this relief measure off as the local and state licensing authorities will work to notify licensees when this relief has been removed and the liquor licensed premises shall be returned to its original approved licensed premises diagram.

Both state and local licensing authorities need to review the modification and make sure that the following criteria are met prior to the final approval of the application:

1. Location and Public Thoroughfares

If the licensee wants to add outside seating/service areas to their current location, the location must be contiguous or adjacent to the currently licensed premises, and must be appropriately monitored by the licensee. Yes, public right-of-ways and the Americans with Disabilities Act (ADA) requirements remain in effect. Only liquor licensed servers may cross any public sidewalk to serve alcoholic beverages to the public. The public cannot consume alcoholic beverages on public sidewalks.

Regulation 47-302(A)(7) remains in effect. That regulation provides nothing herein shall prohibit a licensee from modifying its licensed premises to include in the licensed premises a public thoroughfare, if the following conditions are met:

- a. The licensee has been granted an easement for the public thoroughfare for the purpose of transporting alcohol beverages.
- b. The public thoroughfare is authorized solely for pedestrian and non-motorized traffic.
- c. The inclusion of the public thoroughfare is solely for the purpose of transporting alcohol beverages between licensed areas, and no sale or consumption will occur on or within the public thoroughfare.
- d. Any other conditions as established by the local licensing authority.

2. Boundaries

The area to be added/modified must clearly be delineated by barriers. Warning signs regarding laws against public consumption of alcohol beverages, for example, "No alcoholic beverages beyond this point," must be posted in areas visible to the public at all points of ingress and egress. A control plan must be submitted to address the following:

- Ingress and egress,
- Control of the licensed premises. No alcohol beyond the licensed premises and no outside alcoholic beverages to be brought onto the licensed premises,
- No alcoholic beverages sold to minors, and
- No alcoholic beverages sold to intoxicated parties.

3. Local building and zoning laws

The area to be added/modified must comply with local building and zoning laws and ordinances.

4. Authorization for statement of use or ownership of the area

The licensee must provide proof to both the state and local licensing authorities of their ability to use any street, sidewalk, parking area, or other area, which does not belong to them prior to expanding their licensed premises footprint. In addition to ownership and statement of use, acceptable proof of possession includes lease, rental, or another arrangement.

5. Nearby liquor licensed premises

The area to be added/modified must not encroach upon or overlap with the licensed premises of any other liquor licensed premises.

6. Colorado Liquor Code and Rules

The licensee and licensed premises comply with all other restrictions and requirements imposed by the Colorado Liquor Code and Rules.

Sidewalk Service Areas

Applications for COVID-19 Temporary Modification of Premises are separate from, and in addition to, sidewalk service area applications, as sidewalk service area permits are permanent changes to the licensed premises and can be renewed annually, which extends beyond the timeframe of the relief in this emergency regulation.

Licensees who would like to apply for a sidewalk service area in addition to COVID-19 Temporary Modification of Premises will need to submit an application to the local and state licensing authorities.

Social Distancing

In respect to public health orders, both local and state licensing authorities will review diagrams and safety plans submitted by licensees for the temporary modification of premises to ensure it will promote social distancing and public safety. This includes, and is not limited to, the distance between tables, the capacity of the premises and area to be added/modified, access to the area and premises, and the requirement for patrons and employees to wear masks to the extent required by executive or public health orders.

Expiration of the Emergency Rule 47-302 (F)

As mentioned in the emergency regulation, any temporary modification of premises, approved by both licensing authorities, expires 120 days from the date the emergency regulation is adopted by the State Licensing Authority. In the event that the emergency regulation is extended, or other actions are taken by the State Licensing Authority about this matter, no additional fee or further approval will be required from licensees to maintain the previously approved temporarily modified premises. Additionally, no fee or approval will be required upon the expiration of the emergency regulation, for licensees to remove the temporarily modified premises.

Temporary Modification of Premises After COVID-19

In the event that a licensee had been approved for a temporary modification of premises due to COVID-19, and later desires to make the modification permanent after the emergency rule expires, a new application for a permanent modification of premises would have to be submitted to, and approved by, both local and state licensing authorities along with the required fees.

Compliance with Public Health Orders and Executive Orders Issued During Disaster Emergencies

Regulation 47-1102, 1 C.C.R. 1 203-2, has been adopted on an emergency basis to assist the Colorado Department of Public Health and Environment, County Health Departments, City and County Law Enforcement Partners and the Colorado Liquor Enforcement Division by providing for potential administrative action against a licensee that refuses to comply with the Public Health Orders and Executive Orders issued during this emergency. The Colorado Liquor Enforcement Division is committed to educating the public and liquor licensees about the evolving changes in public health orders related to the sale and consumption of alcoholic beverages on liquor license premises and the social distancing requirements that must be maintained during this pandemic for business to thrive while keeping everyone safe.

If you see a violation, please make a report by email to dor_led@state.co.us. Our enforcement team takes these reports very seriously and will thoroughly investigate every complaint.

The Division reserves the right to amend or withdraw the relief provided in the emergency regulations or industry bulletins at any time but will provide at least three days' notice prior to any withdrawal of emergency rules or industry bulletin(s). If the Division determines that any licensee has violated any regulation or any of the relief provided in any industry bulletin or that the licensee's actions jeopardize public health, safety, or welfare, the Division may recommend that the State Licensing Authority pursue administrative action seeking to suspend or revoke such license.
