Here are the guidelines the City of Englewood has in place when playing on City of Englewood fields.

Keep in mind that field usage can be changed, paused, and/or cancelled at any time based on City, County, State, or National guidelines changes or for field maintenance.

If your team and or its spectators are found not following to these guidelines, your season will be forfeited for the remainder of 2020 with no refunds.

As of June 17, 2020, in addition to the national, state, and local general guidelines, we are asking teams to adhere to the following:
- Maximum 12 Person Roster Limit
- No sharing equipment.
- No handshakes or high fives.
- Umpires will Sanitize ball every half inning
- No spitting (including sunflower seeds).
- Masks are required in common areas or when speaking/interacting to the score keeper.
- Masks are not required on the field of play or during a game.
- Players and Coaches are allowed inside the dugouts while following social distancing guidelines.
- Encourage spectators to remain outside the field, bring their own chairs, and follow social distancing guidelines. Remind spectators to spread out.
- If anyone has a fever or is showing any signs of any illness, they must not attend game. This is regulated by the team manager.
- All coaches, players, spectators, and family members must follow all local, state, and national social distancing guidelines.

Thank you for your patience and cooperation with these guidelines and doing all we can at all levels to help keep kids, coaches, spectators, and employees safe.

Please reach out if there are any questions or need additional details.

Thank you!
