City of Englewood, Colorado
December 2012 Financial Report

GENERAL FUND OVERVIEW AND ANALYSIS

The General Fund accounts for the major “governmental” activities of the City. These activities include “direct” services to the public such as Police, Fire, Public Works, Parks and Recreation, and Library Services. General government also provides administrative and oversight services through the offices of City Manager and City Attorney; the departments of Information Technology, Finance and Administrative Services, Community Development, Human Resources, Municipal Court and Legislation. Debt service, lease payments, and other contractual payments are also commitments of the General Fund.

General Fund - Surplus and Deficits

The graph below depicts the history of sources and uses of funds from 2008 to 2013 Budget. As illustrated, both surpluses and deficits have occurred in the past. The gap has narrowed over the past few years by reducing expenditures, freezing positions, negotiating lower-cost health benefits, increased revenue collections. Continued efforts will be required to balance revenues and expenditures, especially with persistent upward pressure on expenditures due to increases in the cost of energy, wages and benefits.

General Fund: Total Sources and Uses of Funds

The table below summarizes General Fund Year-To-Date (YTD) Revenue, Expenditure, Sales & Use Tax Revenue and Outside City Sales & Use Tax Revenue for the month ended December, 2012. Comparative figures for years 2011 and 2010 are presented as well. The table also highlights the dollar and percentage changes between those periods.

General Fund Revenues
The City of Englewood’s total budgeted revenue is $39,120,001. Total revenue collected through December 2012 was $39,120,001 or $1,002,675 (2.6 percent) more than was collected in 2011. The chart below illustrates changes in General Fund revenues this year as compared to last year.

2012 Year-To-Date Change in General Fund Revenue as Compared to Prior Year

General Fund - Taxes
The General Fund obtains most of its revenue from taxes. In 2011 total revenues were $38,306,575 of which $27,809,361 (72.6 percent) came from tax collections. Taxes include property, sales and use, specific ownership, cigarette, utilities, franchise fees, and hotel/motel. The following pie charts illustrate the contribution of taxes to total revenue for 2007, 2011 and 2012 Budget. Taxes as a percentage of total revenue have declined slightly as other fees and charges have been increased to help offset rising costs and relatively flat tax revenues.
**Property taxes:** These taxes are collected based on the assessed value of all the properties in the City and the mill levy assessed against the property. The City’s total 2011 mill levy collected in 2012 is 7.911 mills. The 2011 mill levy for general operations collected in 2012 is 5.880 mills. In 2001, voters approved a separate, dedicated mill levy for principal and interest payments on the City’s general obligation debt for the construction of parks and recreation projects. The dedicated general obligation debt mill levy is accounted for in the Debt Service Fund. The dedicated general obligation debt mill levy dedicated for the City’s general obligation debt collected in 2012 is 1.741 mills. The General Fund Property Tax collections grew from $2,623,118 in 2007 to $2,994,213 in 2011. This was an increase of $371,095 or 14.1 percent. In 2011 the City collected $2,994,213 or 10.8 percent of 2011 total taxes and eight percent of total revenues from property taxes. The City budgeted $2,880,000 for 2012; and collected $2,874,816 through December 2012.

**Specific ownership:** These taxes are based on the age and type of motor vehicles, wheeled trailers, semi-trailers, etc. These taxes are collected by the County Treasurer and remitted to the City on the fifteenth day of the following month. The City collected $341,423 in 2007 and $246,062 in 2011 which is a decrease of $95,361 or 27.9 percent. The City collected $246,062 in 2011 which is less than one percent of total revenues and total taxes. The City budgeted $250,000 for 2012 and collected $243,293 through December 2012.

**Cigarette Taxes:** The State of Colorado levies a $.20 per pack tax on cigarettes. The State distributes 46 percent of the gross tax to cities and towns based on the pro rata share of state sales tax collections in the previous year. These taxes have fallen significantly in the past and continue to fall after the 2009 federal tax increase of approximately $.62 per pack went into effect. This federal tax increase will fund the State Children’s Health Insurance Program (SCHIP). In 2007 the City collected $278,785, but in 2011 the City collected $190,763, which is a decrease of $88,022 or 31.6 percent. These taxes accounted for less than one percent of total taxes and less than one percent of total revenues in 2011. The City budgeted $190,000 for the year and collected $189,618 through December 2012, which is $1,145 or just under one percent less than the $190,763 collected through December 2011.

**Franchise Fees:** The City collects a number of taxes on various utilities. This includes franchise tax on water, sewer, and public services, as well as occupational tax on telephone services. The City collected $2,356,385 in 2007 and $2,631,393 in
2011, an increase of $275,008 or 11.7 percent. These taxes accounted for 9.4 percent of taxes and 6.9 percent of total revenues in 2011. The City budgeted $3,056,938 for the year; collections through December totaled $2,712,179 compared to $2,631,393 collected during the same period last year.

**Hotel/Motel Tax:** This tax is levied at two percent of the rental fee or price of lodging for under 30 days duration. The City budgeted $8,713 for the year and has collected $10,395 through December 2012.

Sales and use taxes are the most important (and volatile) revenue sources for the City. Sales and use taxes generated 78.2 percent of all taxes and 57.2 percent of total revenues collected in 2011. In 2007, this tax generated $22,753,820 for the City of Englewood; in 2011 the City collected $21,737,110, a decrease of 4.5 percent. This tax is levied on the sale price of taxable goods. Sales tax is calculated by multiplying the sale price of taxable goods times the sales tax rate of 3.5 percent. Vendors no longer receive a fee for collecting and remitting their sales/use taxes. Taxes for the current month are due to the City by the twentieth day of the following month. The City budgeted $22,115,126 for 2012. Sales and Use Tax revenue through December 2012 was $22,331,153 while revenue year-to-date for December 2011 was $21,737,110, an increase of $594,043 or 2.7 percent. Collections (cash basis) for December 2012 were $1,597,872 while collections for December 2011 and December 2010 were $1,419,727 and $1,501,430 respectively. December 2012 collections were 12.5 percent or $178,145 more than December 2011 collections and $96,442 or 6.4 percent more than December 2010 collections.

Collections (cash basis) for December 2012 were $1,597,872 while collections for December 2011 and December 2010 were $1,419,727 and $1,501,430 respectively. December 2012 collections were 12.5 percent or $178,145 more than December 2011 collections and $96,442 or 6.4 percent more than December 2010 collections.

Outside City sales and use tax collections through December totaled $7,364,380 equaling a decrease of approximately $485,350 from 2011.

This revenue source tends to ebb and flow (often dramatically) with the economy, growing during economic expansions and contracting during downturns. The past three years of sales tax collections have been exceptionally erratic making it extremely difficult to make accurate short or long term forecasts. It is important to continually review and analyze sales and use tax data including trends in the various geographic areas of the City. The graph below illustrates the annual volatility of sales taxes since 1999.
The chart below, “Change in Sales/Use Tax Collections by Area 2011 vs. 2010” indicates that most of the decrease in sales tax collections is due to Outside City (Area 7), Centennial Shopping Center (Area 5) and Collections from Public Utilities (Area 8). Economic conditions, judged by sales tax collections, appears to be a “mixed bag” with some geographic areas increasing and some decreasing compared to the same period last year.

![Chart showing change in sales/use tax collections by area 2012 vs 2011](chart.png)

Please note that the geographic map of the sales tax areas was changed as of the February 2012 report, and hopefully makes more sense. Some of the areas will look skewed until more comparable data is available (next year). EURA Areas 9 & 10 and EURA Areas 11 & 12 were incorporated into Areas 1, 2 and 6. Specific changes include:

- Area 1 east boundary will change at Bannock St/Englewood Pkwy east to Acoma St south to Jefferson Ave/Hampden Ave/US 285
- Split the address down the middle of the streets for Area 2 and Area 3: Bannock St and Sherman St
- Split the address down the middle of the streets for Area 3 and Area 4: Belleview Ave, Fox St and Logan St
- The north and south side of the street included in Area 1: Jefferson Avenue
- The north and south side of the street included in Area 2: Jefferson Ave/Hampden Ave/US 285

The bar graph below shows a comparison of monthly sales tax collections (cash basis) for 2007 through 2012.

![2007-2012 YTD Sales/Use Tax Collections by Month - Cash Basis](graph.png)
The next chart illustrates sales tax collections (cash basis) by month and cumulative for the years presented.

Sales tax collections are reported by various geographic areas as illustrated in the following pie charts. These illustrate the changing collection patterns for 2007 and 2011.

Information for business and geographic Areas 7 and 8 follows:

**Area 7:** This geographic area records the outside city sales tax collections (Outside City). Outside City has been the geographic area responsible for much of the sales tax growth (and decline) in past years. Outside City collections have decreased 1.2 percent from the same period last year. The chart below illustrates this area’s contribution to total sales and use taxes (cash basis) as well as total revenues since 2008 for collections through the month of December. The importance of Outside City has declined as a percentage of sales and use tax collections but it continues to remain an important impact on the City’s General Fund as illustrated by the following:

The City records the proceeds of some returns from Outside City into an unearned revenue (liability) account. The criteria staff uses to decide if proceeds should be placed in the unearned account is if a reasonable probability exists for another municipality to claim the revenue. This account currently has a balance of $1,100,000 to cover intercity claims. The City paid $236,998 in refunds including intercity sales/use tax claims through December 2012 compared to $90,465 through December 2011. At this time potential refunds total approximately $1,290,000 for claims submitted to Englewood but not completed.

**Area 8:** This geographic area consists of collections from public utilities. Collections through December 2012 were 5.6 percent or $95,650 less than December 2011. Weather conditions, energy usage conservation, and rising energy prices play an important role in revenue collections. Collections could increase or decrease if the remainder of the year is significantly hotter/colder than normal.

### Other Sales Tax Related Information

Finance and Administrative Services Department collected $158,918 in sales and use tax audit revenues and general collections of balances on account through the month of December 2012, this compares to $202,306 collected in 2011 and $376,960 collected in 2010.

Of the 59 sales tax accounts reviewed in the various geographic areas, 33 (56 percent) showed improved collections and 26 (44 percent) showed reduced collections this year compared to the same period last year.

The Department issued 394 new sales tax licenses through December 2012; 422 and 356 were issued through December 2011 and 2010 respectively.

City records indicate that year-to-date 164 businesses closed (101 of them were outside the physical limits of Englewood) and 421 opened (275 of them were outside the physical limits of Englewood).

Total collected year-to-date is $365,279 (111 percent) more than the $173,381 collected last year during the same period.
In 2006 the City adopted an outcome based budgeting philosophy. City Council and Staff outlined five outcomes to reflect, more appropriately, the desired result of the services delivered to the citizens of Englewood. The five outcomes identified are intended to depict Englewood as:

- A City that provides and maintains quality infrastructure,
- A safe, clean, healthy, and attractive City,
- A progressive City that provides responsive and cost efficient services,
- A City that is business friendly and economically diverse, and
- A City that provides diverse cultural, recreational, and entertainment opportunities.

Outcome based budgeting is an additional tool the City Council and staff use to better develop ways to serve our citizens. This type of budgeting is refined and reviewed on an on-going basis to help us better focus our resources in meeting the objectives of our citizens.

The City budgeted total expenditures at $40,949,793 for 2012, this compares to $39,496,268 and $38,901,342 expended in 2011 and 2010 respectively. Budgeted expenditures for 2012 general government (City Manager, Human Resources, etc.) totals $7,728,324 or 18.9 percent of the total. Direct government expenditures (Police, Fire, etc.) are budgeted at $31,160,730 or 76.1 percent of the total. Debt service (fixed costs) payments are $2,060,739 or five percent of the total.

Total expenditures through December were $39,935,232 compared to $39,496,268 in 2011 and $38,901,342 in 2010. Total expenditures are subject to change until the Comprehensive Annual Financial Report is prepared. At this time, expenditures through December are $1,014,561 (approximately 2.5 percent) below budget.

The chart below illustrates the breakdown of expenditures into debt service, general and direct government services.
The schedule below provides the expenditure for each of the General Fund departments for the years 2008 through 2013 Budget.

General Fund - Transfers
The General Fund has provided funds to and has received funds from Special Revenue Funds, Capital Projects Funds, Internal Service Funds and Component Units in order to buffer temporary gaps in revenue and expenditure amounts. In 2012 the General Fund is not in the position to provide funding to the Capital Projects Funds but has received the following net transfers:

*In addition to the 2011 amount received ($396,130) from the Neighborhood Stabilization Program (NSP) Fund, the NSP Fund returned $47,052 in 2010 of the $750,000 borrowed in this same year. All the funds borrowed by the NSP Fund in 2010 plus interest in the amount of $5,908 have been repaid to the General Fund Long-Term Asset Reserve.

General Fund - Fund Balance
The City designates the fund balance into two categories, restricted and unrestricted. The portion of the fund balance which is restricted is referred to as the “Reserves” while the unrestricted portion is referred to as the unassigned fund balance. The unassigned fund balance represents funds the City sets aside for a “rainy day”. Another way to view these unrestricted funds is as a stabilization fund, the intent of which is to smooth over unexpected fluctuations in revenues and expenditures. The fund balance is normally built up when revenues exceed expenditures. In the past, excess funds have been transferred out, usually for capital projects identified in the Multiple Year Capital Plan (MYCP). The unassigned fund balance is not adequate to provide for a transfer from the General Fund to the capital projects funds.

General Fund - Fund Balance

Long Term Asset Reserve (LTAR) At the 2008 Budget workshop, City Council discussed and directed staff to establish a General Fund reserve account to accumulate funds from the sale, lease, or earnings from long-term assets. It was also determined that these funds should be used in a careful, judicious and strategic manner. The funds restricted in this account are to be expended if the funds are appropriated in the annual budget or by supplemental appropriation.
The balance at the end of December 2012 is $2,619,375. Council reduced the LTAR balance by $100,000 for improvements to the Little Dry Creek Plaza at the December 4, 2012 regular Council Meeting.

The City’s General Fund ended 2011 with total fund balance of $8,817,685, and an unassigned fund balance of $4,962,524 is 12.95 percent of revenues or 12.6 percent of expenditures. The unaudited total ending fund balance for 2012 are $9,725,946 with an unassigned fund balance of $5,658,059 or 14.4 percent of unaudited revenues or 14.2 percent of unaudited expenditures. The $5,658,059 would allow the City to operate for approximately 51.7 days (using average daily estimated expenditures) if all other revenues and financing sources ceased. In these times of economic uncertainty, it is more important than ever to maintain reserves to help the City make up for revenue shortfalls and unexpected expenditure increases given that the one-time transfers made to the General Fund to help maintain reserves are no longer available.

The Public Improvement Fund (PIF) accounts for the City’s “public-use” capital projects (e.g. roads, bridges, pavement, etc.). The PIF funding is from the collection of vehicle and building use taxes, intergovernmental revenues, interest income, and other sources.

Provided for your information is the table below that illustrates the PIF Year-To-Date (YTD) revenue and expenditure amounts for the years 2010 through 2012. The dollar and percentage change between each year is also provided. The Estimated Ending Fund Balance is included in order to account for the remaining PIF appropriation in addition to the remaining annual revenue anticipated for the fund.

This tax is collected and remitted by Arapahoe County at the time the vehicle is registered. **Building Use Tax** is based on the valuation of building permits issued by the City of Englewood. These revenue sources are monitored periodically to determine the revision of the 2012 Estimate. **Arapahoe County Road and Bridge Tax** is restricted to the construction and maintenance of streets and bridges. This tax is based on a mill levy established by Arapahoe County multiplied by the City’s assessed valuation multiplied by 50%.

CLOSING

The Finance and Administrative Services Department staff works closely with the City Manager’s Office and the various departments to help identify revenue and expenditure threats, trends and opportunities as well as strategies to balance revenues and expenditures. I will continue to provide Council with monthly reports. It is important to frequently monitor the financial condition of the City so City staff and Council can work together to take action, if necessary, to maintain service levels, employees, and fiscal health of the City.

I plan to discuss this report with Council at an upcoming study session. If you have any questions regarding this report, I can be reached at 303.762.2401.

Donors’ Fund – Accounts for funds donated to the City for various specified activities.

Employee Benefits Fund – Accounts for the administration of providing City employee benefit programs: medical, dental, life, and disability insurance.

Enterprise Funds account for operations that: (a) are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or (b) where the City Council has decided that periodic determination of revenue earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management controls, accountability or other purposes.

Fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

General Obligation Bond Fund – Accounts for the accumulation of monies for payment of General Obligation Bond principal and interest.

Golf Course Fund – Accounts for revenues and expenses associated with the operations of the Englewood Municipal Golf Course.

Governmental Funds distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). These funds focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year.

The Director of Finance and Administrative Services of the City of Englewood, Colorado is charged with the responsibility to prudently and properly manage any and all funds of the City. Because these funds may be called upon, it is essential that absolute maturity horizons are identifiable for the purpose of liquidity. Moreover, these funds must be fully collateralized and appropriately authorized. The following Investment Policy addresses the methods, procedures and practices which must be exercised to ensure effective and sound fiscal management.

**SCOPE**

This Investment Policy shall apply to the investment of all financial assets and all funds of the City of Englewood (hereafter referred to as the "City") over which it exercises financial control, except the City of Englewood Firefighters Pension Fund, Volunteer Firefighters Pension Fund, Police Officers Pension Fund, the Non-Emergency Employees Retirement Plan Fund and other City employee retirement plans.

In order to effectively make use of the City's cash resources, all monies shall be pooled into one investment account and accounted for separately. The investment income derived from this account shall be distributed to the various City funds in accordance with Englewood Municipal Code, 4-1-2-A.

**OBJECTIVES**

The City's funds shall be invested in accordance with all applicable City policies, Colorado statutes, and Federal regulations, and in a manner designed to accomplish the following objectives, which are listed in priority order:

The City's principal investment objectives are:
- Preservation of capital and the protection of investment principal.
- Maintenance of sufficient liquidity to meet anticipated disbursements and cash flows.
- Diversification to avoid incurring unreasonable risks regarding securities owned.
- Attainment of market rate of return equal to or higher than the performance measure established by the Director of Finance and Administrative Services.
- Conformance with all City, Federal, State and other legal requirements.

**DELEGATION OF AUTHORITY**

The ultimate responsibility and authority for investment transactions involving the City resides with the Director of Finance and Administrative Services (hereinafter referred to as the "Director") who has been designated by the City Manager as the Investment Officer in accordance with Englewood Municipal Code. The Director may appoint other members of the City staff to assist him in the cash management and investment function. Persons who are authorized to transact business and wire funds on behalf of the City will be designated by the Director by the wire transfer agreement executed with the City's approved depository for bank services (see Appendix I). The Director shall be responsible for all investment decisions and activities, and shall establish written administrative procedures for the operation of the City's investment program consistent with this Investment Policy. The Investment Officer acting within these procedures shall not be held personally liable for specific investment transactions.
The Director may in his discretion appoint one or more Investment Advisors, registered with the Securities and Exchange Commission under the Investment Advisers Act of 1940, to manage a portion of the City's assets. An appointed Investment Advisor may be granted limited investment discretion within the guidelines of this Investment Policy with regard to the City's assets placed under its management. An Investment Advisor can only be appointed after consultation with and approval by the City Manager.

PRUDENCE
The standard of prudence to be used for managing the City's assets is the "prudent investor" rule, which states that a prudent investor "shall exercise the judgment and care, under the circumstances then prevailing, which men of prudence, discretion, and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the probable disposition of funds, considering the probable income as well as the probable safety of capital." (CRS 15-1-304, Standard for Investments.)

The City's overall investment program shall be designed and managed with a degree of professionalism that is worthy of the public trust. The City recognizes that no investment is totally riskless without risk and that the investment activities of the City are a matter of public record. Accordingly, the City recognizes that occasional measured losses may be desirable or occur in a diversified portfolio and shall be considered within the context of the portfolio's overall return, provided that adequate diversification has been implemented and that the sale of a security is in the best long-term interest of the City.

The Director and other authorized persons acting in accordance with established procedures and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion to the City Council and appropriate action is taken to control adverse developments.

ETHICS AND CONFLICTS OF INTEREST
All City employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Employees and investment officials shall disclose to the City Manager any material financial interest in financial institutions that conduct business with the City, and they shall further disclose any large personal financial/investment positions that could be related to the performance of the City's portfolio. Employees shall subordinate their personal investment transactions to those of the City particularly with regard to the timing of purchases and sales.

ELIGIBLE INVESTMENTS AND TRANSACTIONS
All investments will be made in accordance with the Colorado Revised Statutes (CRS) as follows:
CRS 11-10.5-101, et seq. Public Deposit Protection Act; CRS 11-47-101, et seq. Savings and Loan Association Public Deposit Protection Act; CRS 24-75-601, et seq. Funds-Legal Investments; CRS 24-75-603, et seq. Depositories; and CRS 24-75-701, et seq. Local governments—authority to pool surplus funds/investment funds/Local Government Pooling. Any revisions or extensions of these sections of the CRS will be assumed to be part of this Investment Policy immediately upon being enacted.

As a home rule City, Englewood may adopt a list of acceptable investment instruments differing from those outlined in CRS 24-75-601, et seq. Funds-Legal Investments. Funds of the City of Englewood covered by this Investment Policy may be invested in the following types of securities and transactions:

1. U.S. Treasury Obligations: Treasury Bills, Treasury Notes and Treasury Bonds with maturities not exceeding five years from the date of trade settlement.
2. Treasury Strips (book-entry U.S. Treasury securities whose coupons have been removed) with maturities not exceeding five years from the date of trade settlement.

3. Federal Instrumentalities - Debentures, Discount Notes, Medium-Term Notes, Callable Securities and Step-up Securities issued by the following only: Federal National Mortgage Association (FNMA), Federal Home Loan Bank (FHLB), Federal Home Loan Mortgage Corporation (FHLMC) and Federal Farm Credit Banks (FFCB), with maturities not exceeding five years from the date of trade settlement. Subordinated debt may not be purchased. Federal Instrumentality Securities shall be rated in the highest rating category by at least two Nationally Recognized Statistical Rating Organizations (NRSROs) that rate them, and shall be rated not less by any NRSRO that rates the debt.

4. Repurchase Agreements with a termination date of 90 days or less utilizing U.S. Treasury and Federal Instrumentality securities listed above, collateralized at a minimum market value of 102 percent of the dollar value of the transaction with the accrued interest accumulated on the collateral included in the calculation.

Repurchase agreements shall be entered into only with dealers who:

a) are recognized as Primary Dealers by the Federal Reserve Bank of New York, or with firms that have a primary dealer within their holding company structure; and

b) have executed a City approved Master Repurchase Agreement (see Appendix II). The Director shall maintain a file of all executed Master Repurchase Agreements.

Primary Dealers approved as Repurchase Agreement counterparties, if rated, shall have a short-term credit rating of at least A-1 or the equivalent and a long-term credit rating of at least A or the equivalent.

Collateral (purchased securities) shall be held by the City's custodian bank as safekeeping agent, and the market value of the collateral securities shall be marked-to-the-market daily.

For the purposes of this section, the term "collateral" shall mean "purchased securities" under the terms of the City approved Master Repurchase Agreement. In no case will the maturity of the collateral exceed 10 years.

5. Reverse Repurchase Agreements with a maturity of 90 days or less executed only against securities owned by the City and collateralized by the same type of security reversed.

6. Flexible Repurchase Agreements with a final maturity of 10 years or less entered into by the City with approved counterparties. These flexible repurchase agreements may be closed out in varying amounts and at varying times at the option of the City. These agreements are deemed by both parties to be purchases and sales of securities and are not loans.

All such flexible repurchase agreements shall meet the following criteria:

- Be determined as legal and valid for both parties;
- Collateral shall be limited to:
  a) Securities issued by, guaranteed by, or for which the credit of any of the following is pledged for payment: the United States, Federal Farm Credit Bank, Federal Land Bank, Federal Home Loan Bank, Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, Export Import Bank or the Government National Mortgage Association; or
  b) Securities issued by, guaranteed by, or for which the credit of the following is pledged for payment: An entity or organization which is not listed in paragraph a) above, but which is (1) created by, or the creation of which is authorized by, legislation enacted by the United States Congress and which is subject to control by the federal government which is at least as extensive as that which governs an entity or
organization listed in paragraph (a) above, and (2) rated in its highest rating category by one or more nationally recognized organizations which regularly rate such obligations.

- Have a fixed rate during the entire life of the agreement;
- The dollar amounts and periods of time when the City may draw funds out of the repurchase agreement shall be agreed upon in writing by both parties and shall be part of the written repurchase agreement executed by the City and the approved counterparty;
- The City has the option of varying the dollar amount and the timing of the draw down by an agreed upon percentage of the anticipated draw down and a specified number of days. The City and the counterparty to the agreement will specify the details of the allowable variance when the agreement is structured. In addition, the City may draw down in excess of the variance up to the remaining balance in the agreement for a bona fide, unanticipated cash need;
- Collateral shall have a minimum market value (including accrued interest, accumulated) of at least 102 percent of the dollar value of the transaction;
- Repurchase agreements shall be entered into only with dealers who are authorized by the Director and have executed a City approved Master Repurchase Agreement;
- The Director shall maintain a file of all executed Master Repurchase Agreements;
- The title to or a perfected security interest in securities, along with any necessary transfer documents, shall be transferred and actually delivered to, and shall be held by, the City's third-party custodian bank acting as safekeeping agent. The market value of the collateral securities shall be marked-to-the-market at least weekly based on the closing bid price at the time the custodian for the collateral issues its monthly statement to the City.

For the purpose of this section, the term "collateral" shall mean "purchased securities" under the terms of the City approved Master Repurchase Agreement. In no case will the maturity of the collateral exceed 10 years.

7. Time Certificates of Deposit with a maximum maturity of five years or savings accounts in state or national banks or state or federally chartered savings banks operating in Colorado that are state approved depositories (as evidenced by a certificate issued by the State Banking Board) and are insured by the FDIC. Certificates of deposit that exceed the FDIC insured amount shall be collateralized in accordance with the Colorado Public Deposit Protection Act. The collateral shall have a market value equal to or exceeding 102 percent of the difference between the insured amount and the City's total deposits for all funds within the institution.

8. Money Market Mutual Funds registered under the Investment Company Act of 1940 that: 1) are "no-load" (i.e.: no commission or fee shall be charged upon purchase or sales of shares); 2) have a constant net asset value per share of $1.00; 3) limit assets of the fund to securities authorized by state statute; 4) have a maximum stated maturity and weighted average maturity in accordance with Rule 2a-7 of the Investment Company Act of 1940; and 5) have a rating of AAA by Standard & Poor's, Aaa by Moody's or AA+ by Fitch.

10. Prime Bankers Acceptances, rated at least A-1 by Standard & Poor's, P-1 by Moody's and F1 by Fitch at the time of purchase by at least two services that rate them and shall be rated not less by any service that rates them, with a maturity of six months or less issued on domestic banks or branches of foreign banks domiciled in the U.S. and operating under U.S. banking laws. Accepting banks must have a senior debt rating of A2 by Moody's and A by Standard & Poor's.
11. Prime Commercial Paper with a maturity of 270 days or less which, at the time of purchase, is rated at least A-1 by Standard & Poor's, P-1 by Moody's and F-1 by Fitch.

   a) At the time of purchase, the commercial paper must be rated by at least two of the above stated rating agencies at the stated minimum rating.
   b) If more than two of the above stated agencies rates an issuer, all of those rating agencies must rate the issuer in accordance with above stated minimum credit criteria.
   c) If the commercial paper issuer has senior debt outstanding, the senior debt must be rated by each service that publishes a rating on the issuer as at least A2 by Moody's, A by Standard and Poor's and A by Fitch.

12. Corporate Bonds issued by a corporation or bank with a final maturity not exceeding three years from the date of trade settlement, rated at least AA- by Standard & Poor's, Aa3 by Moody's, or AA by Fitch at the time of purchase by each service that rates the debt. Authorized corporate bonds shall be U.S. dollar denominated, and limited to corporations organized and operated within the United States with a net worth in excess of $250 million.

   Securities that have been downgraded below minimum ratings described herein may be sold or held at the City's discretion. The portfolio will be brought back into compliance with Investment Policy guidelines as soon as is practical.

OTHER INVESTMENTS
It is the intent of the City that the foregoing list of authorized securities be strictly interpreted. Any deviation from this list must be pre-approved by the Director in writing after approval by the City Manager.

INVESTMENT DIVERSIFICATION
It is the intent of the City to diversify the investment instruments within the portfolio to avoid incurring unreasonable risks inherent in over investing in specific instruments, individual financial institutions or maturities. The asset allocation in the portfolio should, however, be flexible depending upon the outlook for the economy, the securities market, and the City's cash flow needs.

The City may invest to the following maximum limits within each category:

- 50% in Certificates of Deposit
- 40% in Commercial Paper
- 20% in Bankers Acceptances
- 30% in Corporate Bonds; 5% in any one issuer or its affiliates or subsidiaries

Tests for limitations on percentages of holdings apply to the composite of the entire portfolio of the City, not to individual portfolios maintained by the City. Percentage limitations used for measurements are based on the percentage of cost value of the portfolio.

INVESTMENT MATURITY AND LIQUIDITY
Investments shall be limited to maturities not exceeding five years from the date of trade settlement. In addition, the weighted average final maturity of the total portfolio shall at no time exceed 24 months.

SELECTION OF BROKER/DEALERS.
The Director shall maintain a list of broker/dealers approved for investment purposes (see Appendix III) and it shall be the policy of the City to purchase securities only from those authorized firms.
To be eligible, a firm must meet at least one of the following criteria:

1. be recognized as a Primary Dealer by the Federal Reserve Bank of New York or have a primary dealer within their holding company structure,
2. report voluntarily to the Federal Reserve Bank of New York,

Broker/dealers will be selected by the Director on the basis of their expertise in public cash management and their ability to provide service to the City's account. Each authorized broker/dealer shall be required to submit and annually update a City approved Broker/Dealer Information Request form which includes the firm's most recent financial statements. In the event that an external investment advisor is not used in the process of recommending a particular transaction in the City's portfolio, any authorized broker/dealer from whom a competitive bid is obtained for the transaction will attest in writing that he/she has received a copy of this policy.

The City may purchase Commercial Paper from direct issuers even though they are not on the approved list of broker/dealers as long as they meet the criteria outlined in Item 12 of the Eligible Investments and Transactions section of this Investment Policy.

COMPETITIVE TRANSACTIONS
Each investment transaction shall be competitively transacted with authorized broker/dealers. At least three broker/dealers shall be contacted for each transaction and their bid and offering prices shall be recorded.

If the City is offered a security for which there is no other readily available competitive offering, then the Director will document quotations for comparable or alternative securities.

SELECTION OF BANKS AS DEPOSITORIES AND PROVIDERS OF GENERAL BANKING SERVICES
The City shall maintain a list of banks approved to provide banking services or from whom the City may purchase certificates of deposit. Banks in the judgment of the Director no longer offering adequate safety to the City will be removed from the list. To be eligible for authorization, a bank shall qualify as a depository of public funds in Colorado as defined in CRS 24-75-603.

SAFEKEEPING AND CUSTODY
The safekeeping and custody of securities owned by the City shall be managed in accordance with applicable Federal and Colorado laws and regulations.

The Director shall approve one or more banks to provide safekeeping and custodial services for the City. A City approved Safekeeping Agreement shall be executed with each custodian bank prior to utilizing that bank's safekeeping services. To be eligible, a bank shall qualify as a depository of public funds in the State of Colorado as defined in CRS 24-75-603 and be a Federal Reserve member financial institution.

Custodian banks will be selected on the basis of their ability to provide service to the City's account and the competitive pricing of their safekeeping related services. The City's designated custodian bank is set forth in Appendix IV of this Investment Policy.

The purchase and sale of securities and repurchase agreement transactions shall be settled on a delivery versus payment basis. Ownership of all securities shall be perfected in the name of the City, and sufficient evidence to title shall be consistent with modern investment, banking and commercial practices.
All investments, except certificates of deposit and local government investment pools purchased by the City shall be delivered by either book entry or physical delivery and will be held in third-party safekeeping by the City's designated custodian bank, its correspondent bank or the Depository Trust Company (DTC).

All Fed wireable book entry securities owned by the City shall be evidenced by a safekeeping receipt or a customer confirmation issued to the City by the custodian bank stating that the securities are held in the Federal Reserve system in a Customer Account for the custodian bank which will name the City as "customer."

All DTC eligible securities shall be held in the custodian bank's Depository Trust Company (DTC) participant account and the custodian bank shall issue a safekeeping receipt evidencing that the securities are held for the City as "customer.

All non-book entry (physical delivery) securities shall be held by the custodian bank's correspondent bank and the custodian bank shall issue a safekeeping receipt to the City evidencing that the securities are held by the correspondent bank for the City as "customer."

The City's custodian will be required to furnish the City with a monthly report of securities held as well as an account analysis report of monthly securities activity.

**PROVISIONS FOR ARBITRAGE**

The City periodically issues debt obligations which are subject to the provisions of the Tax Reform Act of 1986 (section 148F), Arbitrage Rebate Regulations. Due to the legal complexities of arbitrage law and the necessary immunization of yield levels, the procedures undertaken in the reinvestment of all or a portion of the proceeds of such debt issuance may extend beyond those outlined in this Investment Policy. The Director, upon advice from Bond Counsel and financial advisors, may alter provisions of this Investment Policy for arbitrage related investments as may be necessary to conform with federal arbitrage regulations. In all cases, however, investments will be in compliance with Colorado Revised Statutes. This section is only applicable to City funds subject to arbitrage restrictions.

**REPORTING**

An investment report shall be prepared, at least on a monthly basis, listing the investments held by the City, the current market valuation of the investments and performance results. The monthly investment report shall be submitted in a timely manner to the City Manager and the City Council. A record shall be maintained by the Department of Finance and Administrative Services of all bids and offerings for securities transactions in order to ensure that the City receives competitive pricing.

The City has established reporting and accounting standards for callable U.S. instrumentality securities. Callable securities may be retired at the issuer's option prior to the stated maximum maturity. All securities holding reports for the City shall disclose the stated maturity as well as the first call date of each callable security held. In the case of callable securities which are purchased priced to the first call date and, in the opinion of the Director, have an overwhelming probability of being called on the first call date, weighted average maturity, amortization as well as yield shall be calculated using the first call date. The Director may, however, choose to use a further call date for reporting purposes when conditions mandate.

**PERFORMANCE REVIEW**
The Director and the City Manager shall meet at least quarterly to review the portfolio's adherence to appropriate risk levels and to compare the portfolio's total return to the established investment objectives and goals.

The Director shall periodically establish a benchmark yield for the City's investments which shall be equal to the average yield on the U.S. Treasury security which most closely corresponds to the portfolio's actual effective weighted average maturity. When comparing the performance of the City's portfolio, all fees and expenses involved with managing the portfolio should be included in the computation of the portfolio's rate of return.
POLICY REVISIONS
This Investment Policy will be reviewed periodically by the Director and may be amended as conditions warrant by the City Manager and the City Council.
