COUNCIL COMMUNICATION

Date: February 3, 2014
Agenda Item: 9 a i
Subject: I.G.A. re: Federal Equitable Sharing Agreement and Certification

Initiated By: Police Department
Staff Source: Jeff Sanchez, Deputy Chief of Police

COUNCIL GOAL AND PREVIOUS COUNCIL ACTION

The Federal Equitable Sharing Program allows us to receive funds from the Federal government on a yearly basis. Our participation in this program contributes to the City’s goals of a safe, clean, healthy, and attractive City and a progressive City that provides responsive and cost efficient services. City Council had previously approved the Federal Equitable Sharing Program for 2010, 2011, 2012 and 2013.

RECOMMENDED ACTION

The Police Department is recommending that City Council adopt a Bill for an Ordinance authorizing an Intergovernmental Agreement allowing the Englewood Police Department to accept forfeiture monies from the Department of Justice and the Department of the Treasury by completing the Federal “Equitable Sharing Agreement and Certification” form. This request is for fiscal years 2014, 2015, 2016, and 2017.

BACKGROUND, ANALYSIS, AND ALTERNATIVES IDENTIFIED

The Englewood Police Department periodically receives Federal forfeiture monies from the Justice and Treasury Departments for our participation or assistance provided to these agencies such as the Internal Revenue Service (IRS), Drug Enforcement Agency (DEA) and Federal Bureau of Investigation (FBI). These funds are used for law-enforcement purposes, such as equipment purchases and training. As part of our participation, we are required to sign a Federal Equitable Sharing Agreement and Certification that sets forth the requirements for participation in the Federal Equitable Sharing Program and the restrictions upon the use of federally forfeited cash, property, proceeds, and any interest earned thereon, which are equitably shared with participating law enforcement agencies, including the Englewood Police Department.

The City of Englewood’s Finance Department places this money into designated accounts and tracks deposits, expenditures, and interest on these accounts. Upon year-end, the Chief of Police and Mayor sign the Equitable Sharing Agreement and Certification, which is then submitted to the Federal Government certifying compliance with federal forfeiture guidelines. This must be done within 60 days of the end of the City’s fiscal year.

FINANCIAL IMPACT

Federal forfeiture funds are deposited into the Police Donor’s Fund and are used to pay for police-related equipment and training which would otherwise require City funding.

FFY 2014 EMPG-LEMS Grant Activities
Work Plan Template

Instructions

Use the 15 EMF categories as a framework for planning your annual work program and consider identified capability gaps or shortfalls that need to be addressed. This can be done in four steps.

1. First, consider your community’s long-term strategy for developing and sustaining an all-hazards preparedness strategy, including initiatives that can be accomplished during the grant performance period as well as those objectives that will need to be phased over multiple years.

2. Second, identify Planned Activities that, when completed, will assist you in achieving your long-term strategy. Complete the Work Plan Template by identifying Planned Activities for each Emergency Management Function (EMF) that is relevant to your strategy. Identify to the extent possible the measurable outcome for each Planned Activity.

3. Third, place those activities that can be accomplished during the current performance period in the quarter that you expect the activity to be completed (it is recognized that schedules and priorities change and that activities may actually be accomplished in a different quarter than the one projected).

4. Finally, submit the finished document to your assigned COEM Regional Field Manager.

Please don’t hesitate to contact your COEM Regional Field Manager for assistance in completing this Work Plan Template.

Signatures

Must be signed (in ink) or (Adobe Acrobat digital signature) by the emergency manager and forwarded to the assigned COEM Regional Field Manager for approval.

By signing, the applicant acknowledges that he/she has read and understands the FFY 2014 Program Guidelines and Application Kit.

COUNCIL GOAL AND PREVIOUS COUNCIL ACTION

Council directed staff to work on this topic at the May 20, 2013 study session. On January 21, 2014 the Council approved the first reading of an ordinance, and set the date of February 3, 2014 for a public hearing.

PREVIOUS PLANNING COMMISSION ACTION

The Planning and Zoning Commission conducted a public hearing on October 8, 2013 to consider the proposed amendments to Title 16: Unified Development Code amending regulations concerning Home Occupations. Two members of the public were present, and one member testified. Following discussion, the Commission voted in favor of forwarding to City Council proposed amendments to Title 16, Chapter 5: Use Regulations.

RECOMMENDED ACTION

The Community Development Department recommends conducting a public hearing and taking testimony on the proposed ordinance concerning amendments to Title 16: Unified Development Code regarding Home Occupations.

BACKGROUND, ANALYSIS, AND ALTERNATIVES IDENTIFIED

In May 2013, the City Council raised concerns about limitations of the current Home Occupations regulations, which currently prohibit Home Occupations in the R-1-A zone district. The Council asked staff and the Planning and Zoning Commission to research this issue as it pertains to R-1-A, in order to allow uses that do not impact the neighborhood, such as bookkeeping, internet based businesses, consulting services, and similar uses which do not require clients coming to the home.

The Planning and Zoning Commission reviewed the proposed changes on June 4, July 3, and August 8, 2013. On October 8, 2013 the Commission held a public hearing and recommended that City Council approve an ordinance to amend the Home Occupations regulations. The proposed changes would allow
Home Occupations in the R-1-A zone district, as well as any other district or PUD where residential uses are approved.

Some of the key elements of this proposal include the following:

- Home Occupations would be allowed in R-1-A zone districts.
- Window displays and outdoor merchandise would be prohibited in all zone districts.
- Exterior signage would be prohibited in R-1-A zone districts. This is to protect the special character and exclusivity of the R-1-A zone district.
- As amended by the Council on January 21, 2014, Home Occupations would be prohibited in accessory structures such as garages.
- Limitations on use of electric motors would be removed from the regulations. Noise and other impacts to neighbors would be addressed by referring to Title 15 dealing with nuisances.
- New prohibited uses include manufacture of alcohol, and landscaping industries. As amended by City Council on January 21, 2014, food preparation would be allowed, to align with the Colorado “Cottage Food Act”.
- Additional language is proposed to clarify that the administrative or clerical functions of businesses would be allowed for home occupations that are otherwise prohibited. (Example: Bookkeeping and office functions of a landscaping business would be allowed).
- The limitation of only one (1) home occupation per dwelling unit would be removed from the existing regulations. The Commission wanted to allow multiple businesses in one residence, since there may be several members of a household each operating a business.

Other changes are proposed to clarify these regulations, include the following:

- Deleting the word “incidental” in favor of the word “secondary” in the introductory paragraph. This was done since “incidental” implies something that happens merely by chance or without intention. However, starting a new business deserves extensive thought and planning, and is usually not incidental.
- Require that all materials used in the home occupation shall be stored indoors.
- Remove the requirement to register home occupations with the City, based on the amendment by City Council on January 21, 2014.

ANALYSIS

Home based businesses are a growing trend around the world. Modern telecommunications allow people to work from almost any location for many industries. Advances in e-commerce, based primarily around the internet, allow individuals to run businesses from their homes with virtually no impact to surrounding residential uses. Prices for desktop and laptop computers continue to fall while becoming more powerful tools and providing faster connections to potentially billions of customers around the globe. Parcel delivery services also allow businesses to send and receive packages to customers and clients with the same efficiency as traditional offices.

However, some types of Home Occupations still have the potential to cause disturbance, noise, odors and safety impacts to nearby residents. Some industries have more potential impact on public health, or require greater space (such as vehicle and equipment storage). The amended ordinance keeps in place a list of prohibited home occupations.
Staff has some concerns with a few of the changes included within the ordinance during first reading on January 21, 2014. These include the following concerns:

“No physical customer visits or deliveries relating to the Home Occupation shall be allowed in the R-1-A District”:

Staff believes that prohibiting deliveries would place a severe burden on operating a business. A strict reading of this language would prohibit the business from receiving U. S. mail as well as parcels from Federal Express and United Parcel Service. This restriction does not apply to non-business deliveries, and distinguishing between personal and business deliveries will make enforcement of this regulation difficult, if not impossible.

“Registration. All home occupations shall register with the City prior to the start of operations.”

Requiring a registration for a business is commonplace. Currently, registration of a home occupation is required once at no cost. This allows the City staff to explain the regulations to an applicant, and ensure that applicants understand what activities are allowed, and what are prohibited within a home occupation. This helps to reduce potential violations.

If sales tax licenses are required, the registration process will help to ensure that proper taxes are collected, and that revenue due to the City is paid. Without registering a home occupation, staff will have no information on the number of home occupations in the City, and will have no easy way to get in touch with business owners if problems arise, or if programs to support the business are implemented. If hazardous materials are used on site, registration could also help the Fire Department to know where such materials are used. We believe that registration is a small step for the business owner, but it is very useful to the City staff to understand where businesses are operating in residential areas.

FINANCIAL IMPACT

There could be a financial impact to the City if businesses are not required to register with the City. Some of those businesses that are otherwise required to obtain a sales tax license may not obtain a license, and taxes may not be collected (or remitted) to the City. Over the past 10 years, approximately 720 Home Occupations have registered with the City. In the past, no fee has been charged to register a home occupation.

Indirectly, it is anticipated that this ordinance will have a positive financial impact on the community by encouraging existing entrepreneurs to open businesses at home, encouraging new home buyers to locate in the City, and preventing “leakage” of sales tax dollars when home based businesses owners shop locally.

Planning and Zoning Commission Findings of Fact - Case No. 2013-04
Bill for an Ordinance
TO: Planning & Zoning Commission  
THRU: Alan White, Community Development Director  
FROM: Chris Neubecker, Senior Planner  
DATE: October 8, 2013  
SUBJECT: Case 2013-04 – Public Hearing Home Occupations  

Recommendation: 
The Community Development Department requests that the Planning and Zoning Commission review, take public testimony, and forward to City Council a recommendation for adoption proposed amendments to the Unified Development Code of the Englewood Municipal Code Title 16, Chapter 5, Use Regulations, relating to Home Occupations.

Background: 
On August 6, 2013, the Planning and Zoning Commission reviewed a proposal to modify the existing policy on Home Occupations (EMC 16-5-4 C 1). This review was in response to City Council concerns about existing restrictions that prohibit home occupations in the R-1-A district, which is the residential district with the largest single family lots in the city. The Planning and Zoning Commission supported most of the proposed changes, but raised concerns about some of the proposed restrictions on commercial vehicles in light of the Citizen Referendum 2D, codified as Ordinance 1, Series 2011/2012.

Some Commissioners also raised concerns about prohibiting customers, clients and vendors from visiting a home occupation, although the majority supported this restriction.

Analysis: 
Home Occupations are currently allowed as an Accessory Use in the following zoning districts: R-1-B, R-1-C, R-2-A, R-2-B, MU-R-3-A, and MU-R-3-B. Staff believes that home occupations could also be allowed in the R-1-A district (and any other district where residential uses are allowed) with certain restrictions to protect the residential character of neighborhoods. These proposed restrictions include:

All zoning districts:

- Require materials and equipment used in the home occupation to be stored indoors.
- Allow only one sign per residence, up to one square foot
R-1-A zoning district:
- Prohibit customers, sales and display of goods in the R-1-A district
- Prohibit exterior business signs in the R-1-A district

Commercial Vehicles:

At the last meeting on this topic, some Commissioners raised concerns about prohibiting parking of commercial vehicles at home occupations in the R-1-A zone district. This idea was proposed to preserve the residential character and exclusivity in the R-1-A districts. However, enforcement of this rule may be a challenge. While some commercial vehicles may fit within a garage out of sight from the neighbors, others will be forced to park in a driveway or on the public street. Also, it may be difficult to distinguish between a commercial vehicle used in a home occupation from a commercial vehicle on a normal service call, or a vehicle that an employee takes home from work. Due to these concerns, and those raised by the Commission about Ballot Question 2D concerning parking vehicles on private property, the draft language on parking has been removed from the attached version.

On Site Sales:

The Commission did not reach a consensus on sales of goods or services at a home occupation in the R-1-A zone district. Some agreed that sales, customers and clients should be prohibited at home occupations to preserve the residential character. Others felt that customers and clients coming to a residential property is a vital part of operating a home based business. The concern focused on the number of people and cars per day, which could be significant at times. One example was a tax accountant in March and April, which could generate many daily visits during the busiest times of the tax season.

Staff does not believe that customer traffic will be significant in most cases. Also, we believe that most of the potential impacts of home occupations are addressed by limiting uses, prohibiting exterior signs and display of merchandise, and prohibiting employees not residing at the property.

Recommendation
Staff believes that the proposed draft code changes capture the intent and consensus of the Commission from the meeting of August 6. We believe that these changes help support new business development but will also help protect community character in the R-1-A districts.

A motion to recommend approval of the ordinance to City Council is needed.

Next Steps
We hope to develop a consensus of the Planning and Zoning Commission at this hearing. If the Planning & Zoning Commission recommends approval, we intend to move forward with first reading of an ordinance by City Council.

Mr. Neubecker gave a summary of the need for the proposed changes, which were to allow home occupations in R-1-A zones, but to limit potential negative impacts. Some of the issues that have not yet been agreed upon by the Commission include commercial vehicles and on-site sales. As proposed, no customers, vendors or clients would be allowed at home occupations in R-1-A. Also, no exterior signs would be allowed in R-1-A.

AN ORDINANCE AMENDING TITLE 16, CHAPTERS 5, 4-C(1)(a) THROUGH (g); 5-4-C(2)
AND 11-2-B, OF THE ENGLEWOOD MUNICIPAL CODE 2000 PERTAINING TO HOME
OCCUPATIONS AND ALLOWING THEM IN THE R-1-A ZONE DISTRICTS.

WHEREAS, the City has the authority to regulate the use of land from the “Local
Home Rule Charter, Nopro vs. Town of Cherry Hills Village, 504 P.2d 344 (1972); and

WHEREAS, the City has the authority to regulate home occupations, Christiansen vs. City
Council of City of Golden, 757 P.2d 1121 (1988) and Jones vs. Board of Adjustments, 204 P.2d
560 (1949); and

WHEREAS, the City has adopted ordinances under its police power regulating the use of
signs and creating a comprehensive system of sign standards to provide a balance between the
right of businesses to identify themselves, the protection of the uses permitted and compatibility
with the surrounding area; and

WHEREAS, there are additional limitations on home occupations in the R-1-A zone district in
order to protect the special character and exclusivity of the R-1-A zone district; and

WHEREAS, restrictions on commercial speech are constitutional per Central Hudson Gas and
Electric vs. P.S.C., 447 U.S. 557 (1980); and Board of Trustees vs. Fox, 492 U.S. 469 (1989),
including prohibiting signs entirely; and

WHEREAS, the Planning and Zoning Commission found window signs for home occupations
should be prohibited in R-1-A zone districts to protect the special character and exclusivity of the
R-1-A zone district; and

WHEREAS, the Planning and Zoning Commission added to the list of prohibited uses; food
preparation, manufacture of alcohol, and landscaping industries because these would:
• be more likely to have impacts on the surrounding area

the area;
• have impacts that are more akin to commercial and industrial zones, that people don’t
want to see in residential zones.

WHEREAS, the City Council finds the “Cottage Food Act” 25-4-1614 C.R.S. and the
Nuisance Code provide sufficient safeguards against odors, and other impacts; and

WHEREAS, the Planning and Zoning Commission felt further defining a home office and a home occupation was unnecessary; and

WHEREAS, the Planning and Zoning Commission recommended deleting the word "incidental" in favor of the word "secondary" in the introductory paragraph because the structure is still primarily a residence.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ENGLEWOOD, COLORADO, THAT:

COUNCIL COMMUNICATION

Date: February 3, 2014
Agenda Item: 11 ci
Subject: Resolution appropriating funds to hire a Permit Technician for the remainder of 2014

Initiated By: Finance and Administrative Services Department
Staff Source: Frank Gryglewicz, Director

COUNCIL GOAL AND PREVIOUS COUNCIL ACTION

City Council has continually supported excellent customer service. City Council discussed hiring an additional Permit Technician at the January 21, 2014 Study Session. Council determined the additional position was warranted and directed staff to take the necessary actions to appropriate funds and begin the hiring process.

RECOMMENDED ACTION

Staff recommends City Council approve the attached resolution for a supplemental appropriation to the 2014 Budget for the following:

SOURCES AND USES OF FUNDS:

GENERAL FUND:

SOURCE OF FUNDS:
Unassigned Fund Balance $45,000

USE OF FUNDS:
Fire Department, Building Division - Permit Technician $45,000

BACKGROUND, ANALYSIS, AND ALTERNATIVES IDENTIFIED

Prior to 2014, the City employed two Permit Technicians. One Permit Technician retired in September 2013. It was believed when the 2014 Budget was developed that one Permit Technician would be adequate, but the elimination of the second Permit Technician has caused customer service to decline below acceptable levels. Building Division requested that Council fund the hiring of a second Permit Technician to bring customer service back to acceptable levels.

The amount appropriated is for the remainder of 2014 only; the annual cost of salary and benefits is estimated at $54,000.

FINANCIAL IMPACT

This action will reduce the General Fund’s Unassigned Fund Balance by $45,000.

A RESOLUTION APPROVING A SUPPLEMENTAL APPROPRIATION OF FUNDS TO THE 2014 BUDGET.

WHEREAS, the City of Englewood is required by City Charter to ensure that expenditures do not exceed legally adopted appropriations; and

WHEREAS, the 2014 Budget was submitted and approved by the Englewood City Council on October 21, 2013; and

WHEREAS, the Englewood City Council has continually supported excellent customer service; and

WHEREAS, prior to 2014 the City Building Department employed two Permit Technicians; and

WHEREAS, due to the retirement of one Permit Technician in 2013, the 2014 Budget was developed with only one Permit Technician; and

WHEREAS, due to a decline in the City Building Department customer service levels the City would like to hire a second Permit Technician for the remainder of 2014 in order to bring the customer service level back to acceptable levels.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ENGLEWOOD, COLORADO, AS FOLLOWS:

COUNCIL COMMUNICATION

Date: February 3, 2014
Agenda Item: 11 ci
Subject: EMTS Provider Grant FY2014

Initiated By: Fire Department
Staff Source: Andrew Marsh, Chief
Steve Green, EMS Coordinator

COUNCIL GOAL AND PREVIOUS COUNCIL ACTION

Staff continues to maximize City resources by seeking alternative funding for needed resources.

RECOMMENDED ACTION

Staff seeks for Council approval to apply for a grant from the Colorado Department of Public Health and Environment (CDPHE) to assist with the purchase of three new LifePak 15 cardiac monitor/defibrillators.

BACKGROUND, ANALYSIS, AND ALTERNATIVES IDENTIFIED

The Colorado Emergency Medical and Trauma Services (EMTS) Provider Grant program, a part of CDPHE, is intended to assist public and private organizations in maintaining, improving and expanding the emergency medical and trauma services system in Colorado.

The monitor/defibrillators currently in use by the fire department are experiencing an increasing level of down time per unit, due to age and high usage. New units are necessary for the fire department to continue to be able to acceptably perform the advanced life support care that makes up about 83% of their EMS call volume.

A minimum of a 50% cash match is required. Funds from the EMTS grant program may be used to improve emergency medical services by assisting with the funding of ambulances, communication, data collection, EMS equipment and EMS related education programs.

FINANCIAL IMPACT

The State grant requires a minimum of a 50% match. The City is required to fund the remainder of the cost of the equipment. Money has already been approved in the budget for this purpose. Because this equipment will have to be purchased in the near future, one way or another, the use of grant funding to support that purchase will in essence save the City 50% of the cost.

Grant Options

1. Organization Match Percentage: 50%
2. Is this a multi-organizational Application? No
3. Select the counties that this grant project impacts: Arapahoe
4. Does your organization provide services outside the Colorado borders? No
5. Please describe your overall grant request in ten sentences or less:
   We are requesting assistance with the purchase of three LifePak 15 cardiac monitor/defibrillators.
   Our current equipment, three LifePak 12s, is at the end of its service life and has become unreliable, despite regular service and quality maintenance and repairs. Our service runs about 83 percent ALS related calls, so the cardiac monitor is vital to our ongoing ability to provide that service.

Service Needs:

1. Briefly explain what EMS or trauma equipment you are requesting and why it is needed:
   Cardiac monitor/defibrillators are essential for our ALS service. Our current equipment has become unreliable and is requiring a rapidly increasing level of repairs to remain in service.

2. Describe where the equipment will be placed and how it be utilized:
   Two of the LP15's will be placed in front line service. The third will be a reserve unit that can also be used to place a third medic apparatus in service for special events, mutual aid and disaster response.

3. How will current provider services be enhanced with the requested equipment?
   Our current monitor/defibrillators are showing their age and the amount of use they have had has taken a toll on them. They will not be supported by the manufacturer much longer and are considered outdated. Our ability to continue to function as a 911 response agency will be compromised if we are not able to replace our current monitor/defibrillators.

4. Describe local support for this project and how this support will help ensure successful completion:
   As we provide 911 response and mutual aid, this project will support our jurisdiction as well as Denver, Littleton and South Metro response districts.

Priority to Underdeveloped or Aged Systems:

5. Explain how this proposed project addresses an underdeveloped or aged component of Colorado's EMS and trauma system:
   As noted in Item 3, our current equipment is 8-10 years old and is used on about 2,100 calls per year. It is becoming unreliable and although it has not yet compromised patient care, that is certainly a possibility.

Cost Effectiveness:

6. Briefly describe the alternatives your agency considered and why this is the most cost effective alternative:
   Our agency has used the Physio-Control equipment for decades. We have historically received a reasonable discount from them for new equipment. It is also compatible with neighboring agencies, allowing for mutual aid and transfer of care with minimal cost to the patient or to other agencies.

7. Briefly describe the process used to select the equipment vendor(s):
   This equipment is compatible with our other existing equipment (AEDs) and neighboring jurisdictions. We did not put it out to bid, as it is more cost effective for us to replace aged equipment than it is to completely change our system.

8. How will this project be sustained financially in future years?
   We maintain a service contract with Physio Control for our existing equipment and plan to do so in the future. We are looking at establishing a capital equipment replacement fund for much of our EMS equipment, much as is established for vehicle replacement.

https://www.hfemsd3.dphe.state.co.us/CEMSISWeb_GrantRequests/page3110PrintHtml.aspx 1/28/2014
Applicant's qualifications:

9. Explain how adequate resources and experience are available to help ensure successful completion of this project:
   We have over 20 paramedics that are qualified to use this equipment. Our EMS Coordinator will coordinate the purchase of the equipment, training necessary to use it effectively and ongoing upkeep.

10. Explain how the applicant's qualifications will help ensure long term sustainability of this project:
    We have budgeted funds for an ongoing service contract for this equipment. We will contract with Physio-Control, the manufacturer, to maintain the equipment in top condition over its lifespan, as we have done in the past.

Systems Integration:

11. How does this project improve system compatibility and/or reduce duplication?
    LP15 monitor/defibrillators are compatible with all of our neighboring jurisdictions. They are essential for our front line apparatus and there is no known duplication that would conflict with this requested equipment.

Financial Need:

12. Explain why your organization needs grant funding to complete this project:
    Please see the attached financial statement.

13. What would happen if these grant funds were not secured?
    We will most likely delay the purchase of the necessary equipment until we can determine if sufficient funds can be maneuvered to purchase them without support.

Financial narrative

The City of Englewood is a full service city that provides a wide range of services, including police, fire and EMS, public works, utilities, parks and recreation, library and general government services. These governmental activities are supported by the City's General Fund and two capital projects funds. The Englewood Fire Department is a functional unit of the City of Englewood (see Agency Structure) and is funded through the city's General Fund.

The City operates a golf course, water treatment plant and water distribution system, maintains a wastewater collection system and manages a wastewater treatment plant held jointly with the City of Littleton. These activities are accounted for as individual enterprise funds. The funds of these activities are restricted to their own unique use and not available for general governmental activities.

As with many local, state and federal agencies, the current need for funds across the City far outstrips the amount available for spending. The major sources of revenue are sales and use taxes, property taxes, franchise taxes, licenses and permits, intergovernmental revenue (includes grants), charges to customers for goods and services, municipal court fines and investment income.

The City has had a flat revenue stream for the last 15 years, although it is trending slightly upward toward the end of 2013. With declining sales tax revenues and increasing fixed expenses, the ability to budget for replacing necessary durable goods has been limited City wide.

The general fund has not been in a position to fund requests of the capital projects fund for the last twelve years. This includes funding for the replacement of fire apparatus. The use of grant funding was required in order to purchase replacement ambulances in 2011 and 2012. The City is in its tenth year of a status quo budget, or less, with the exception of personnel costs dictated by contract negotiations.

The Fire Department budget has been status quo for over 14 years, with a zero growth bottom line excepting the contract obligations noted above. Cost increases for training, equipment, fuel and other supplies have not been reflected in the budget during that period of time, but absorbed through reductions in other expenditures. This has significantly impacted the ability of the Department to acquire new or replacement equipment and apparatus and to maintain our aging infrastructure.

The patient transport fees generated by Fire Department EMS responses are returned to the General Fund and are not a direct source of revenue for the Department. Regardless, it is a source of revenue for the City as a whole and impacts the bottom line of the general fund. These revenues declined by 10% in 2010 and have not increased significantly since that time. The cost of billing for and collecting ambulance transport fees, about 7% of total revenues, is paid through the Fire Department operating budget.
We will be replacing aged LifePak 12s that have passed the end of their efficient, useful service life. The down-time per unit has risen significantly in the last 12-18 months, as has reliability. If Englewood is awarded this grant, the City will provide the required match through money from the General Fund that is set aside for this purpose.

CONTRACT
CITY OF ENGLEWOOD, COLORADO

THIS CONTRACT and agreement, made and entered into this 23rd day of January, 2014, by and between the City of Englewood, a municipal corporation of the State of Colorado hereinafter referred to as the “City”, and LONG Building Technologies, Inc., whose address is 5001 S. Zuni St. Littleton, CO 80120, (“Contractor”), commencing on the day of March 1, 2014, and continuing for at least ten (10) days thereafter the City advertised that sealed proposals would be received for furnishing all labor, tools, supplies, equipment, materials and everything necessary and required for the following:

PROJECT: Video Surveillance System

WHEREAS, proposals pursuant to said advertisement have been received by the Mayor and City Council and have been certified by the Director of Public Works and Information Technology to the Mayor and City Council with a recommendation that a contract for work be awarded to the above named Contractor who was the lowest reliable and responsible bidder therefore, and

WHEREAS, pursuant to said recommendation, the Contract has been awarded to the above named Contractor by the Mayor and City Council and said Contractor is now willing and able to perform all of said work in accordance with said advertisement and his proposal.

NOW THEREFORE, in consideration of the compensation to be paid and the work to be performed under this contract, the parties mutually agree as follows:

A. Contract Documents: It is agreed by the parties hereto that the following list of instruments, drawings and documents which are attached or incorporated by reference constitute and shall be referred to either as the Contract Documents or the Contract and all of said instruments, drawings, and documents taken together as a whole constitute the Contract between the parties hereto and they are as fully a part of this agreement as if they were set out verbatim and in full:

Invitation to Bid
Contract (this instrument)
Insurance
Performance Payment Maintenance Bond
Technical Specifications
Drawings sheets

B. Scope of Work: The Contractor agrees to and shall furnish all labor, tools, supplies, equipment, materials and everything necessary for and required to do, perform and complete all the work described, drawn, set forth, shown and included in said Contract Documents.

C. Terms of Performance: The Contractor agrees to undertake the performance of the work under this Contract within ten (10) days from being notified to commence work by the Director of Public Works and Information Technology and agrees to fully complete said work by LONG Building Technologies, Inc., plus such extension or extensions of time as may be granted by the Director of Public Works and Information Technology, in accordance with the provisions of the Contract Documents and Specifications.

D. Indemnification: The city cannot and by this Agreement/Contract does not agree to indemnify, hold harmless, exonerate or assume the defense of the Contractor or any other person or entity, for any purpose. The Contractor shall defend, indemnify and save harmless the City, its officers, agents and employees from any and all claims, demands, suits, actions or proceedings of any kind or nature
including Worker's Compensation claims, in any way resulting from or arising out of this Agreement/Contract: provided, however, that the Contractor need not indemnify or save harmless the City, its officers, agents and employees from damages resulting from the sole negligence of the City's officers, agents and Employees.

E. Termination of Award for Convenience: The City may terminate the award at any time by giving written notice to the Contractor of such termination and specifying the effective date of such termination, at least thirty (30) days before the effective date of such termination. In that event all finished or unfinished service, reports, material(s) prepared or furnished by the Contractor after the award shall, at the option of the City, become its property. If the award is terminated by the City as provided herein, the Contractor will be paid that amount which bears the same ratio to the total compensation as the services actually performed or material furnished bear to the total services/materials the successful firm agreed to perform under this award, less payments of compensation previously made. If the award is terminated due to the fault of the Contractor the clause relating to termination of the award for cause shall apply.

F. Termination of Award for Cause: If, through any cause, the Contractor shall fail to fulfill in a timely and proper manner its obligations or if the Contractor shall violate any of the covenants, agreements or stipulations of the award, the City shall have the right to terminate the award by giving written notice to the Contractor of such termination and specifying the effective date of termination. In that event, all furnished or unfinished services, at the option of the City, become its property, and the Contractor shall be entitled to receive just, equitable compensation for any satisfactory work documents, prepared completed or materials as furnished.

Notwithstanding the above, the Contractor shall not be relieved of the liability to the City for damages sustained by the City by virtue of breach of the award by the Contractor and the City may withhold any payments to the Contractor for the purpose of set off until such time as the exact amount of damages due the City from the Contractor is determined.

G. Terms of Payment: The City agrees to pay the Contractor for the performance of all the work required under this contract, and the Contractor agrees to accept as his full and only compensation therefore, such sum or sums of money as may be proper in accordance with the price or prices set forth in the Contractor's proposal attached and made a part hereof, the total estimated cost thereof being Five hundred and twenty five thousand seven hundred and fifty eight dollars and zero cents. ( $525,758.00)

H. Appropriation of Funds: At present, $ has been appropriated for the project. Notwithstanding anything contained in this Agreement to the contrary, the parties understand and acknowledge that each party is subject to Article X, § 20 of the Colorado Constitution ("TABOR"). The parties do not intend to violate the terms and requirements of TABOR by the execution of this Agreement. It is understood and agreed that this Agreement does not create a multi-fiscal year direct or indirect debt or obligation within the meaning of TABOR and, notwithstanding anything in this Agreement/Contract to the contrary, all payment obligations of the City are expressly dependent and conditioned upon the continuing availability of funds beyond the term of the City's current fiscal period ending upon the next succeeding December 31. Financial obligations of the City payable after the current fiscal year are contingent upon funds for that purpose being appropriated, budgeted, and otherwise made available in accordance with the rules, regulations, and resolutions of the City and applicable law. Upon the failure to appropriate such funds, this Agreement shall be deemed terminated. The City shall immediately notify the Contractor or its assignee of such occurrence in the event of such termination.
I. **Assignment:** Contractor shall not, at any time, assign any interest in this Agreement or the other Contract Documents to any person or entity without the prior written consent of the City specifically including, but without limitation, moneys that may become due and moneys that are due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law). Any attempted assignment which is not in compliance with the terms hereof shall be null and void. Unless specifically stated to the contrary in any written consent to an Assignment, no Assignment will release or discharge the Assignor from any duty or responsibility under the Contract Documents.

J. **Contract Binding:** It is agreed that this Contract shall be binding on and inure to the benefit of the parties hereto, their heirs, executors, administrators, assigns, and successors.

K. **Contractors Guarantee:** The Contractor shall guarantee that work and associated incidentals shall remain in good order and repair for a period of one (1) year from all causes arising from defective workmanship and materials, and to make all repairs arising from said causes during such period without further compensation. The determination of the necessity for the repair or replacement of said project, and associated incidentals or any portion thereof, shall rest entirely with the Director of Public Works and Information Technology whose decision upon the matter shall be final and obligatory upon the Contractor.

(a) Employees, Contractors and Subcontractors: Contractor shall not knowingly employ or contract with an illegal alien to perform work under this Contract. (b) Verification: Contractor will participate in either the E-verify program or the Department program, as defined in C.R.S. 8-17.5-101 (3.3) and 8-17.5-101 (3.7) respectively, in order to confirm the employment eligibility of all employees who are newly hired for employment to perform work under this public contract. Contractor is prohibited from using the E-Verify program or the Department program procedures to undertake pre-employment screening of job applicants while this contract is being performed.

(c) Duty to Terminate a Subcontract: If Contractor obtains actual knowledge that a subcontractor performing work under this Contract knowingly employs or contracts with an illegal alien, the Contractor shall:

(1) notify the subcontractor and the City within three days that the Contractor has actual knowledge that the subcontractor is employing or contracting with an illegal alien; and

(2) terminate the sub-contract with the subcontractor if, within three days of receiving notice required pursuant to this paragraph the subcontractor does not stop employing or contracting with the illegal alien; except that the Contractor shall not terminate the contract with the subcontractor if during such three days the subcontractor provides information to establish that the subcontractor has not knowingly employed or contracted with the illegal alien.

(d) Duty to Comply with State Investigation: Contractor shall comply with any reasonable request of the Colorado Department of Labor and Employment made in the course of an investigation by that the Department is undertaking pursuant to C.R.S. 8-17.5-102 (5).

(e) Damages for Breach of Contract: The City may terminate this contract for a breach of contract, in whole or in part, due to Contractor's breach of any section of this paragraph or provisions required pursuant to C.R.S. 8-17.5-102. Contractor shall be liable for actual and consequential damages to the City in addition to any other legal or equitable remedy the City may be entitled to for a breach of this Contract under this Paragraph.

IN WITNESS WHEREOF, the parties hereto have executed this Contract the day and year first written above.

City Manager
City of Englewood, Colorado Sales and Use Tax and Arapahoe County Open Space Sales Tax

The contractor, or any of his/her sub-contractors, shall be required to pay all sales and use (regular and/or building) taxes levied by the City of Englewood and Arapahoe County on any materials built into, incorporated or used (such as formwork materials, etc.) on the project including rental of equipment. In addition any equipment purchased within the last three years and used on this project is subject to a 3.5% sales tax plus .25% Arapahoe County Open Space Sales Tax. Upon completion of the work, the Contractor will be required to furnish the City with an itemized statement of the tangible property upon which the tax is due.

Building Use Tax is collected on a permit for materials that become part of the improvements to realty. Any other materials not included in a permit are subject to regular use tax. This includes, but is not limited to temporary fencing, tools and equipment purchased or rented for the project, and any other items that would normally be subject to regular use tax (consumed/used by the contractor). A contractor is liable to the City for regular as well as the building use taxes. If City tax has been paid on items subject to regular use tax in Englewood or elsewhere, please provide a receipt for taxes paid to receive credit. All materials subject to regular use tax will be collected when sales/use taxes are filed or when an audit is performed. The contractor shall report separately on Form FR39a the materials that become part of the improvements to realty versus other materials not included in a permit as stated above.

The contractor and/or sub-contractor may be exempt from the tax (for example, State and RTD tax) when the material becomes part of the structure for a tax exempt entity. The contractor and/or sub-contractor must obtain an exemption certificate from the Department of Revenue to purchase the materials tax free.

Each sub-contractor shall compile a complete list of paid invoices, based on materials purchased directly by the sub-contractor, including the following information: invoice number, invoice date, vendor's name, invoice amount, amount of tax due the City, type of materials (cement, rebar, structural steel, flooring, etc.). [Form FR39a]

The contractor shall compile a complete list of paid invoices based on materials purchased directly by the contractor, including the following information: invoice number, invoice, date, vendor's name, amount of invoice, amount of tax due the City, type of material (cement, rebar, structural steel, flooring, etc.). [Form FR39a]

At completion of the work, each sub-contractor shall submit, on forms supplied by the City of Englewood, to the contractor, a document similar to Form FR39a and the "Affidavit" (2 copies) duly acknowledged, based on the information compiled as indicated above. The contractor shall forward all said certificates to the City's Project Manager. (The City will supply said forms.) The contractor and all sub-contractors shall keep sufficient records to verify the amount of purchases subject to use taxes due to the City and the amount of purchases subject to Arapahoe County Open Space taxes due to Arapahoe County. This documentation shall be maintained for three years subsequent to the issue date of the Certificate of Occupancy.

Prior to the City issuing the Certificate of Occupancy (CO), all applicable City of Englewood Regular Use and/or Building Use Taxes and Arapahoe County Open Space Tax on any tangible property built into, incorporated or used on the project must be paid.

COUNCIL COMMUNICATION

Date: February 3, 2014
Agenda Item: 12 b i
Subject: Resolution appropriating funds held by the City of Englewood from the South Broadway Englewood Business Improvement District (SBEBID)

Initiated By: Finance and Administrative Services Department
Staff Source: Frank Gryglewicz, Director

COUNCIL GOAL AND PREVIOUS COUNCIL ACTION

City Council supported the promotion of the Broadway business district for many years.

At the January 21, 2014 Study Session, City Council discussed how to best use the remaining SBEBID funds held by the City of Englewood since August 15, 2013. Council directed staff to prepare a resolution appropriating funds for use on South Broadway. The remainder of the funds will be disbursed to property owners as soon as possible.

RECOMMENDED ACTION

Staff recommends City Council approve the attached resolution for a supplemental appropriation to the 2014 Budget for the following:

SOURCES AND USES OF FUNDS:

DONORS FUND:

SOURCE OF FUNDS:
SBEBID Unassigned Fund Balance $78,000

USE OF FUNDS:
Return of Seed Money to City of Englewood $30,000
South Broadway Holiday Lighting 2014 $20,000
Flower Pot and Bike Rack Maintenance 2014/2015 $28,000
Total Use of Funds $78,000

BACKGROUND, ANALYSIS, AND ALTERNATIVES IDENTIFIED

The South Broadway Englewood Business Improvement District (SBEBID) was formed with the passage of Ordinance 29, Series of 2006. A petition to dissolve the SBEBID was presented to the City Clerk by persons owning property in the District. The petitioners comprised 58.2 percent of the acreage and 57.8 percent of the assessed value of property in the District.

On March 18, 2013 a public hearing was held and continued until June 17, 2013 at which time the petitioners and others provided testimony regarding the dissolution. City Council dissolved the SBEBID with the passage of Ordinance 29, Series of 2013 on July 17, 2013.

The remaining cash assets held by the SBEBID were transferred to the City of Englewood on August 15, 2013 and additional funds have been received from collections made by Arapahoe County. Only expenditures from prior obligations and holiday lighting have been paid from the SBEBID funds.
The balance of the SBEBID funds as of January 22, 2014 is $141,385; after appropriating the funds mentioned above, $63,385 will be available for distribution to property owners.

The Finance and Administrative Services Department is currently reconciling the funds available to determine the amount each property owner is due. Staff will provide City Council with a breakdown of the disbursements prior to making payment.

FINANCIAL IMPACT

The funds available for distribution will be reduced by $78,000. These funds will be used for South Broadway improvements, lighting, and maintenance.
